Redwood City Public Comment ,

The atrocities in Palestine must be stopped. Over 30,000 Palestinians have been killed, over half of Gaza is starving, and 90% of Gazans do not have one meal each day. We are paying for these war crimes through our federal tax dollars instead of what our community needs. Redwood City must pass the community's proposed ceasefire resolution to demand an end to these human rights abuses. Similar resolutions have been passed in San Francisco, Richmond, and Oakland.

A local call for peace from the Council will bring together Redwood City residents of all faiths, and ensure the President and Representative Kevin Mullin listen to us. Over 2/3 of Americans support an immediate permanent ceasefire. Redwood City cannot remain silent on this issue, especially as many of our families and loved ones are being killed or forced to suffer in Palestine.

Sincerely,

We all know that this is beyond ridiculous. How many more war crimes will be broken before we do something actionable? I cannot bear to see another child skeleton.

Redwood City Public Comment ,

Dear City Council

As you are aware, Israel and the US are currently committing Genocide in Gaza. This has been confirmed by a ruling of the ICJ. The horrendous pictures of slaughter are available for the whole world to see. We cannot look away. It is the duty of everyone to do whatever they can to put a stop to genocide. You would want other people to do the same for you, if you and your family were being targeted for extermination.

Over 30,000 Palestinians have been confirmed killed, but the actual number is much higher at this time, closer to 200,000. And now in addition to the indiscriminate bombing, shooting, and torture committed by the Israeli Army and the Israeli settlers, the entire population of Gaza is being starved. Disease is spreading. Israel is also responsible for the starvation and disease, since they are preventing food and medicine from being delivered to Gaza, and have bombed all of the hospitals in Gaza, and have murdered countless doctors.

We are paying for these war crimes through our federal tax dollars instead of what our community needs. Redwood City must pass the community's proposed ceasefire resolution to demand an end to the Genocide. Similar resolutions have been passed in San Francisco, Richmond, and Oakland.

A local call for peace from the Council will bring together Redwood City residents of all faiths, and ensure the President and Representative Kevin Mullin listen to us. Over 2/3 of Americans support an immediate permanent ceasefire. Redwood City cannot remain silent on this issue, especially as many of our families and loved ones are being killed or forced to suffer in Palestine.

Redwood City Public Comment ,

To the Redwood City Council,

I grew up in the Bay Area and have been living in Redwood City for 2.5 years. I have voted in every election I can, and believe that voting and making each person's voice heard is an integral part of our government. During the Trump era, I advocated strongly against the culture of hate that was developing; I believe that making your voice heard to your elected officials is the lifeblood of well-functioning democracy.

I'm now writing to urge the Redwood City Council to approve a ceasefire in Palestine resolution as soon as possible. We are already five months into a brutal assault on the livelihood of Gazans, but advocating for a ceasefire now is better than never at all. The violence committed on October 7 by Hamas was inexcusable and my heart aches for the lives lost senselessly, for the looming threat of heightened antisemitism, and for the hostages who continue to live without certainty of their future. But my heart also aches for the children of Gaza who will grow up without their limbs, without their parents and loved ones, and for those who will not grow up at all. Every day, new horrors are reported on the ground in Gaza by journalists who are risking not only their own lives but also the lives of their families: stories of babies slowly perishing in the ICU, fathers crushed by trucks for the crime of trying to retrieve food for their starving families, mothers carrying their children's body parts in a bag in an effort to bury them with some modicum of dignity. Human history is rife with instances of extreme violence. But the blood from this military campaign on Gaza is on the hands of every US taxpayer. As a US taxpayer, I believe it is unconscionable that US tax dollars are being spent to decimate a community already living under difficult conditions at the best of times. I also believe that the uninterrupted flow of military aid from the United States to Israel is serving to only prolong this conflict and is directly antithetical to any pursuit of everlasting peace and equity in the region.

I, and many others, have pleaded with our government through multiple channels to place conditions on the aid sent to Israel and advocate for a ceasefire on the international stage. These pleas have seemingly fallen on deaf ears. Redwood City must pass its agendized ceasefire resolution on March 11. This effort, in synergy with similar resolutions in San Francisco, Oakland, and Richmond and nationwide protests, is a key step toward ending a cycle of violence that has lasted lifetimes. It is therefore vitally important that Redwood City Council pass a ceasefire resolution.

Sincerely,

Nivedita Saxena

Redwood City Public Comment ,

Please vote to support this ceasefire resolution. According to the American Friends Service Committee, in Gaza, “[o]ver 17,000 children are unaccompanied or separated from their parents, and many more classified with the new acronym used by aid workers, WCNSF, Wounded Child No Surviving Family.”\*

Wounded Child. No Surviving Family. 17,000 wounded children struggling to stay alive, and they have no surviving relatives.

And that report is two weeks old.

Our federal tax dollars are supporting this war, when they could be supporting our community's needs. Please pass our community's proposed ceasefire resolution.

Redwood City cannot remain silent on this issue. We cannot bring back the families of those wounded children with no surviving relatives. But, at the very least, we can tell our leaders we need a ceasefire to stop creating more Wounded Children with No Surviving Relatives.

Sincerely,

Redwood City Public Comment ,

I am writing on behalf of Palestinian friends in RWC who have been vilified and blamed for the Hamas atrocities. And, as a Jewish woman, I know that Jews are being targeted and blamed for Israel's genocidal attacks on Gaza. The US, that is we the taxpayers, are footing the bill for Israel's crimes against humanity. Our rabbi has gone over to Israel to work with Standing Together, an group of Israeli Jews and Israeli Christian & Muslim Palestinians working for ceasefire and a lasting just peace. Alon-Lee Green, one of the Jewish Israelis, gave a zoom presentation to our Synagogue last week. He told us that the US is being a bad friend to Israel by providing so many billions for weapons. Mr. Lee compared US government policy to someone telling their drunk friend not to drink while continually refilling their glass.

People say this isn't a local issue but it is because RWC citizens have loved ones in Israel and some lost family and friends on October 7th. Others are Palestinians whose loved ones are being killed, maimed and terrorized by Israel's revenge in Gaza and increasing attacks in the West Bank and Golan Heights.

Of course, it is also a local issue because about a \$1,000,000 of RWC residents tax money is going to weapons manufacturers who are profiteering off the US funding of Israel's military.

Follow your community's lead and protect all your citizens from watching their family and friends suffer- and maybe even be killed. Pass a Ceasefire Resolution to protect innocent children, to bring hostages home and to quit squandering our tax money on destruction. That money could be paying for infrastructure repairs, aid to local businesses, better education and public health, and cutting the RWC deficit.

Sincerely,

Redwood City Public Comment ,

As a LGBTQ+ Filipina-American, I urge the City Council to approve a ceasefire resolution as soon as possible. By witnessing hundreds of footages on social media of Palestinians being injured, killed, displaced, and psychologically damaged, there is no further evidence proving Israel is not committing genocide. Biden isn't listening and continues to approve any form of funding into the Israeli military. In conclusion, I urge you to speak out against this genocide on Palestinians in Gaza and demand a ceasefire resolution.

The atrocities in Palestine must be stopped. Over 30,000 Palestinians have been killed, over half of Gaza is starving, and 90% of Gazans do not have one meal each day. My name is Robert Littlejohn and I live in city council district 4, just south of El Camino. I'm going to be a father for the first time in less than eight weeks, and it's very difficult for me to see parents in Gaza who had to watch their newborn children die when I know that could be me if I lived there. Over 10,000 children have died in Gaza at a rate of something like one every ten minutes. I don't think there's any reason why the City Council can't support a ceasefire and I would encourage Councilmember Saballos and the rest of the council to use their power to focus public attention on this issue. The only way this war stops is if ordinary people from the bottom up make it clear that it's unacceptable.

Sincerely,  
Robert Littlejohn

Redwood City Public Comment ,

Hi,

My name is Anas and I've lived in Woodside for 6 years and now I'm in district 4 in Redwood City since the last 4 years. I have grown as a person and professionally with the community here. I work in tech, and have been an active member, contributor and voter in the community for the last 14 years. The war crimes being committed in Palestine are important to me and are strongly influencing how I think about the role our local government has in global affairs. We may not have control over what is happening there but we do have influence in our local communities to make a statement and create an opportunity to educate our community members. 30,000 Palestinians have been killed and we are paying for these war crimes through our tax dollars instead of what our community needs. Redwood City must pass the community's proposed ceasefire resolution to demand an end to these human rights abuses. Similar resolutions have been passed in neighboring cities and districts and it is shameful to me if my own city that I work so hard to better isn't on that list.

Sincerely,  
Anas

Redwood City Public Comment ,

As a resident of Redwood City, council district 6, I implore you pass this resolution for a ceasefire in Palestine.

We, ourselves, occupy land that European settlers violently took over through the genocide of the Ramaytush Ohlone peoples, who had been living here for centuries.

I have family in Western Asia. We are painfully aware of the historic and ongoing ravages of Eurocentric colonialism, oppression, and exploitation there and around the world.

Israel must stop its atrocities in Palestine. They have killed over 30,000 Palestinians just since October 2023. They have forced over half of Gaza into starvation, where 90% of Gazans do not have one meal each day. Israeli settlers continue to evict, dispossess, and murder Palestinians throughout the territory.

We must proclaim our full support of the 26 January 2024 order by the International Court of Justice, according to which:

The State of Israel shall, in accordance with its obligations under the Convention on the Prevention and Punishment of the Crime of Genocide, in relation to Palestinians in Gaza, take all measures within its power to prevent the commission of all acts within the scope of Article II of this Convention, in particular:

- (a) killing members of the group;
- (b) causing serious bodily or mental harm to members of the group;
- (c) deliberately inflicting on the group conditions of life calculated to bring about its physical destruction in whole or in part; and
- (d) imposing measures intended to prevent births within the group.

We are paying for these war crimes through our federal tax dollars, funds that we could otherwise invest in what our community needs. Redwood City must pass the community's proposed ceasefire resolution to demand an end to these human rights abuses. Similar resolutions have been passed in San Francisco, Richmond, and Oakland.

A local call for peace from the Council will bring together Redwood City residents of all convictions and origins, and ensure that President Biden and Representative Kevin Mullin listen to us. Over 2/3 of Americans support an immediate permanent ceasefire. Redwood City cannot remain silent on this issue, especially as many of our families and loved ones are being killed or forced to suffer in Palestine.

Sincerely,

Richard Wiecki

Redwood City Public Comment ,

The atrocities in Palestine must be stopped. Over 30,000 Palestinians have been killed, over half of Gaza is starving, and 90% of Gazans do not have one meal each day. We are paying for these war crimes through our federal tax dollars instead of what our community needs. Redwood City must pass the community's proposed ceasefire resolution to demand an end to these human rights abuses. Similar resolutions have been passed in San Francisco, Richmond, and Oakland.

A local call for peace from the Council will bring together Redwood City residents of all faiths, and ensure the President and Representative Kevin Mullin listen to us. Over 2/3 of Americans support an immediate permanent ceasefire. Redwood City cannot remain silent on this issue, especially as many of our families and loved ones are being killed or forced to suffer in Palestine.

Sincerely,

Rashid Ahmad

You don't often get email from noreply@adv.actionnetwork.org. [Learn why this is important](#)

Redwood City Public Comment ,

I write as a resident of Redwood City and City Council District 2 to urge you to vote for Item #10.A, the resolution in support of a bilateral ceasefire in Gaza. Over 30,000 Palestinians have been killed, over half of Gaza is starving, and 90% of Gazans do not have one meal each day. We are paying for these war crimes through our federal tax dollars, which fund bombs and armaments for Israel when they should be funding jobs, infrastructure, and the common health of our community. Redwood City must pass the community's proposed ceasefire resolution to demand an end to these human rights abuse, just like San Francisco, Richmond, and Oakland already have. This is not a distant issue for our community, which now includes at least one Palestinian family displaced from Gaza - we owe it to our new neighbors to help end the assault on Gaza by adding our voice to the call for peace.

The atrocities in Palestine must be stopped and your vote can hasten the end of the conflict. A local call for peace from the Council will bring together Redwood City residents of all faiths, and ensure the President and Representative Kevin Mullin listen to us. Over 2/3 of Americans support an immediate permanent ceasefire. History will judge harshly those who shirk the responsibilities of elected office to stand silent as thousands in Gaza are maimed, killed, and starved with the complicity of our government. "United Against Hate" must not be made into an empty slogan by averting our eyes to the hateful massacre of the people of Gaza we can plainly see unfolding. Redwood City cannot remain silent on this issue.

Sincerely,

Steven Ortega  
sdor95@gmail.com

Redwood City Public Comment ,

Dear Redwood City Council Members,

My name is Nadia Jafri. I am one of your constituents, a regular voter, and a resident of Emerald Hills.

Thank you so much for putting this resolution on the agenda!

I have close friends who have lost many family members in Gaza since the beginning of the slaughter/genocide/conflict 5 months ago. I have joined them as they watch in helpless horror at the atrocities being inflicted upon their families; and the desperation and resilience with which the Gazans suffer through unrelenting starvation, non-stop bombardments, and the constantly rising death toll.

Having reached 40,000 murdered Palestinian people, is it not time to simply call out ENOUGH?!?!?!?

I have witnessed the west's outrage over the beheading of 40 imaginary babies. But the actual slaughter of 15,000 Palestinian children has been deemed "collateral damage". As an American, I am so saddened and ashamed of this glaring hypocrisy. When will our thirst for Muslim blood ever be quenched? What number of dead brown people is going to be enough for us?

It is a well-known fact that a permanent ceasefire is widely supported by over 2/3 of Americans like me. Calling for a ceasefire does not divide us; it merely validates what we as your constituents are feeling. In fact, not calling for a ceasefire makes people like me feel marginalized and dismissed.... and I feel unsafe by the message that my city has put out that says anyone who supports a ceasefire is "anti-semitic". That doesn't even make any sense!

I realize that Redwood City's resolution will not change any foreign policy matters. But it will reassure the citizenry of our great city, especially the pacifists and anti-war peacemakers among us. I have always taught my kids to speak up when bad things are happening around them, be it bullying in school, or overt racism in public, or even microaggressions against minorities. Shouldn't we as a city also simply go on the record and speak up about the ICJ-termed "plausible genocide" that is being inflicted on the Gazans for 150+ days? Isn't that the right thing to do? Isn't it better than looking the other way, pretending not to see what some of us bear witness to on a daily basis on social media?

President Biden, Senator Padilla, and Kevin Mullin have been disappointing in their double-

speaking and overly-political rhetoric about this Gazan holocaust. That is why I feel like this issue has to pick up traction at the grassroots level...at the city level across the entire state. Only then will our Washington politicians, who have been bought by special interest groups, be forced to take our opinions seriously.

Please, please, please support this ceasefire resolution. May you never have to endure what my Palestinian friends and neighbors are experiencing at the hands of USA-backed Israel government.

Sincerely,  
nadia jafri

Redwood City Public Comment ,

In December I stood before you as a health care worker and Palestinian appealing to your morale. Since then the situation in Gaza is even more dire. The atrocities in Palestine must be stopped. Over 30,000 Palestinians have been killed, over half of Gaza is starving, and 90% of Gazans do not have one meal each day.

Every day I check the news but I know it doesn't cover the true extent of how bad it is in Gaza. We don't hear the wailing of hungry children. We don't hear the wimpers of injured innocent lives. We don't hear the incessant carpet bombing. We don't smell the burning and the decay. I'm paralyzed by my privilege to stop reading or looking at these horrific images. In your position of power you can make the utmost stand to bear witness and stop this genocide. It is deeply immoral to sit with our privilege and turn away. We are paying for these war crimes through our federal tax dollars instead of what our community needs.

Redwood City must pass the community's proposed ceasefire resolution to demand an end to these human rights abuses. Similar resolutions have been passed in San Francisco, Richmond, and Oakland.

Redwood City Public Comment ,

The atrocities in Palestine must be stopped. Over 30,000 Palestinians have been killed, over half of Gaza is starving, and 90% of Gazans do not have one meal each day. We are paying for these war crimes through our federal tax dollars instead of what our community needs. Redwood City must pass the community's proposed ceasefire resolution to demand an end to these human rights abuses. Similar resolutions have been passed in San Francisco, Richmond, and Oakland.

A local call for peace from the Council will bring together Redwood City residents of all faiths, and ensure the President and Representative Kevin Mullin listen to us. Over 2/3 of Americans support an immediate permanent ceasefire. Redwood City cannot remain silent on this issue, especially as many of our families and loved ones are being killed or forced to suffer in Palestine.

Sincerely,

Nisreen Zeidan

Redwood City Public Comment ,

The atrocities in Palestine must be stopped. Over 30,000 Palestinians have been killed, over half of Gaza is starving, and 90% of Gazans do not have one meal each day. So many of the dead are children. Of the rest of the children, there are many injured and even more that are hungry. We are paying for these war crimes through our federal tax dollars instead of what our community needs. Redwood City must pass the community's proposed ceasefire resolution to demand an end to these human rights abuses. Similar resolutions have been passed in San Francisco, Richmond, and Oakland.

A local call for peace from the Council will bring together Redwood City residents of all faiths, and ensure the President and Representative Kevin Mullin listen to us. Redwood City Public Comment ,

The atrocities in Palestine must be stopped. Over 30,000 Palestinians have been killed, over half of Gaza is starving, and 90% of Gazans do not have one meal each day. We are paying for these war crimes through our federal tax dollars instead of what our community needs. Redwood City must pass the community's proposed ceasefire resolution to demand an end to these human rights abuses. Similar resolutions have been passed in San Francisco, Richmond, and Oakland.

A local call for peace from the Council will bring together Redwood City residents of all faiths, and ensure the President and Representative Kevin Mullin listen to us. Over 2/3 of Americans support an immediate permanent ceasefire. Redwood City cannot remain silent on this issue, especially as many of our families and loved ones are being killed or forced to suffer in Palestine.

Sincerely,

Sana Saifuddin

Redwood City Public Comment ,

This country is funding a genocide, where 2.3 million people are in danger of being wiped off the face of this earth. We have to stop this Holocaust, the first one of this millennium. People living in Redwood City have family members in Gaza. One friend of mine has 6 siblings there. She doesn't want them all to die.

Children in years to come will learn about the Holocaust of the Palestinian people and say, "Why did no one stop it?" Please be on the right side of history and take action now so you will not be among those who looked the other way. Silence is complicity.

Redwood City Public Comment ,

Dear council members,

I have lived and worked in Redwood City for 3 years. While I have moved to Sunnyvale, I still consider RWC home for its quality community with noble morals. My only daughter was born and spent most of her 3 years in RWC.

I am writing to call on your humanity first. The atrocities in Palestine must be stopped. As president Biden finally acknowledged in the SOTU, over 30,000 Palestinians have been killed, over half of Gaza is starving, and 90% of Gazans do not have one meal each day. sadly and unfortunately, we are paying for these war crimes through our federal tax dollars instead of what our community needs. Redwood City must pass the community's proposed ceasefire resolution to demand an end to these human rights abuses. Similar resolutions have been passed in San Francisco, Richmond, and Oakland.

A local call for peace from the Council will bring together Redwood City residents of all faiths, and ensure the President and Representative Kevin Mullin listen to us. Over 2/3 of Americans support an immediate permanent ceasefire. Redwood City cannot remain silent on this issue, especially as many of our families and loved ones are being killed or forced to suffer in Palestine.

Sincerely,

The atrocities in Palestine must be stopped. Over 30,000 Palestinians have been killed, over half of Gaza is starving, and 90% of Gazans do not have one meal each day. We are paying for these war crimes through our federal tax dollars instead of what our community needs. Redwood City must pass the community's proposed ceasefire resolution to demand an end to these human rights abuses. Similar resolutions have been passed in San Francisco, Richmond, and Oakland.

A local call for peace from the Council will bring together Redwood City residents of all faiths, and ensure the President and Representative Kevin Mullin listen to us. Over 2/3 of Americans support an immediate permanent ceasefire. Redwood City cannot remain silent on this issue, especially as many of our families and loved ones are being killed or forced to suffer in Palestine.

Sincerely,

Nuri Hasanov

I am a retired Software Engineer and am writing to implore you to support the upcoming ceasefire resolution to try to put pressure on our representatives at the state and federal level for decisive action to end immediately what the International Court Of Justice has ruled is a plausible genocide in Gaza. As the Israeli government continues its indiscriminate and arbitrary vindictive killings of civilians in Gaza, committing war crime after war crime, and is now literally inducing a man-made famine by withholding sufficient humanitarian aid from entering Gaza, it is imperative that everyone in our communities do as much as they can to stop this barbarity. Silence in this matter is the same as complicity in a genocide.

A local call for peace from the Council will bring together Redwood City residents of all faiths, and ensure the President and Representative Kevin Mullin listen to us. Over 2/3 of Americans support an immediate permanent ceasefire. Redwood City cannot remain silent on this issue, especially as many of our families and loved ones are being killed or forced to suffer in Palestine.

Sincerely,

Christopher Jewell

Redwood City Public Comment ,

Sen. Chris Van Hollen (D-Md.) has recently stated that the Israeli actions going on in Gaza are “textbook war crimes”. His comments have been widely covered by major US news sources including USA Today and verification is easily found. As most people really know, actions such as those that took so many lives on October 7th, 2023 do not happen in a vacuum. The Israeli government policies of arresting and torturing pre-teen Palestinians, confiscating Palestinian homes and properties, and collective punishment for being Palestinian has been going on for decades. The Genocide and ethnic cleansing going on today in Gaza and the West Bank are war crimes. Bombing civilian populations, hospitals, and killing medical staff, news reporters, UN aid workers, and other non-combatants are all war crimes. The Israeli rationale with no proof of “there might be a bad guy in that hospital” and the dozens of other allegations used to excuse the murder of women and children and the massive destruction are disgusting enough without adding in that none of it would be possible without the massive influx of US money and armaments.

The atrocities in Palestine must be stopped. Over 30,000 Palestinians have been killed, over half of Gaza is starving, and 90% of Gazans do not have one meal each day. We are paying for these war crimes through our federal tax dollars instead of what our community needs. Redwood City Public Comment ,

More than 30,000 people have been killed in Gaza, over 12,000 of whom are children—that's 1 in every 75 people in Gaza. Every hour in Gaza: 15 people are killed (six are children), 35 people are injured, 42 bombs are dropped (based on the first six days of the war, according to the Israeli army), and 12 buildings are destroyed.

These devastating atrocities are happening Every. Single. Day.

Public opinion indicates extreme outrage at what's been happening overseas, largely being funded with our tax dollars. A lot of us can't shake this feeling of powerlessness in the face of this ongoing humanitarian crisis. Everyone is trying to do everything in their power to help the truly helpless and suffering.

The atrocities in Palestine must be stopped. Over 30,000 Palestinians have been killed, over half of Gaza is starving, and 90% of Gazans do not have one meal each day. We are paying for these war crimes through our federal tax dollars instead of what our community needs. Redwood City Public Comment ,

The atrocities in Palestine must be stopped. Over 30,000 Palestinians have been killed, over half of Gaza is starving, and 90% of Gazans do not have one meal each day. We are paying for these war crimes through our federal tax dollars instead of what our community needs. Redwood City must pass the community's proposed ceasefire resolution to demand an end to these human rights abuses. Similar resolutions have been passed in San Francisco, Richmond, and Oakland.

A local call for peace from the Council will bring together Redwood City residents of all faiths, and ensure the President and Representative Kevin Mullin listen to us. Over 2/3 of Americans support an immediate permanent ceasefire. Redwood City cannot remain silent on this issue, especially as many of our families and loved ones are being killed or forced to suffer in Palestine.

Sincerely,

Hafsa Syeda

Redwood City Public Comment ,

It truly breaks my heart to know that children in Gaza are dying from lack of food. My 3 children were born in Redwood City at the Kaiser Hospital. We as Americans have to stop being the pipeline to sending the weapons that Israel uses on the civilians in Gaza. We are the guilty ones, enabling IDF to fire on Palestinians running to humanitarian aid trucks.

The atrocities in Palestine must be stopped. Over 30,000 Palestinians have been killed, over half of Gaza is starving, and 90% of Gazans do not have one meal each day. As a first generation immigrant who believes in the good this country can bring, and as a long time Bay Area resident who sees the importance of this community in shaping the larger society, I urge the City Council to approve a ceasefire in Palestine resolution as soon as possible. Atrocities in Palestine must be stopped. Over 30,000 Palestinians have been killed, over half of Gaza is starving, and 90% of Gazans do not have one meal each day. We are paying for these war crimes through our federal tax dollars instead of what our community needs. Redwood City Public Comment ,

Please know that this genocide is deeply affecting Americans. To have our federal legislators ignore their constituents, ignore US Leahy laws, and international law and vote to send billions of taxpayer dollars to Israel is beyond repugnant.

Please let us know that you hear us. Personally, I have two friends from Gaza. Thankfully one is now a professor in Edinburgh where he got his education, but the other returned to Gaza to work in an NGO for his countrymen, and to raise a family.

This highly compassionate man is sheltering with his wife and two small children after his house in Gaza City was completely destroyed. In a recent text he shared, "Our life is over, and there is nothing left to do. I'm just sobbing over my two children's lives and futures. I feel too feeble to provide them with protection and power."

I am urging you to pass the ceasefire resolution to take a stand for peace and justice.

The atrocities in Palestine must be stopped. Over 30,000 Palestinians have been killed, over half of Gaza is starving, and 90% of Gazans do not have one meal each day. We are paying for these war crimes through our federal tax dollars instead of what our community needs. Redwood City must pass the community's proposed ceasefire resolution to demand an end to these human rights abuses. Similar resolutions have been passed in San Francisco, Richmond, and Oakland.

A local call for peace from the Council will bring together Redwood City residents of all faiths, and ensure the President and Representative Kevin Mullin listen to us. Over 2/3 of Americans support an immediate permanent ceasefire. Redwood City cannot remain silent on this issue, especially as many of our families and loved ones are being killed or forced to suffer in Palestine.

Sincerely,

Redwood City Public Comment ,

As a long-time resident of Redwood City, I'm simply appalled by the killing of more than 30,000 people in Gaza. Imagine this was happening to people you loved and in your very hometown where families are getting wiped out. There is absolutely no excuse for this — especially given that our own tax dollars are behind these atrocities.

As a leader, now is your chance to stand up for what is right. Are you going to be like everyone else in positions of power and stay silent? Or are you going to leave a mark on your legacy? One that shows you stood up for what is right and morally conscionable. 2/3 of Americans are screaming for a ceasefire and now this is your test and opportunity to do what's right.

Redwood City Public Comment ,

My name is Raine, and I have lived in Redwood City/San Mateo County my whole life. I was born in Kaiser Permanente, I went to elementary and middle school in San Carlos, and I'm now in my Senior year of school in Redwood City. I have worked for years as an assistant teacher at a Scandinavian language school in San Francisco, and also have started a part time job in San Carlos.

I'm 17 years old, and this is the first year I've had to pay taxes. I should dread taxes because they're annoying and confusing, I should not dread doing them because I know that they are contributing to an on-going genocide. There's a little 9 year old girl in the class I help out in. She's the same age as my cousins, and even though I'm not supposed to have favorites, I would say she is one of my favorites. She's Palestinian, and often talks to me about it. The joy I saw on her face the first time I wore my keffiyeh to work made me so incredibly happy because I realized what I'm doing does matter. But that happiness quickly went away when I realized that the money I'm making by working with her and the other students is going to go to Israel, and is going to continue to oppress her people.

If she had been born in Palestine instead of here in the US, if her dad hadn't been able to leave Palestine, she would likely have been one of the thousands of children living under occupation, being bombed, shot at, and deliberately starved. The money that I pay in taxes could have gone to fund more weapons for Israel, that then could have gone and killed her. I'm 17, I'm still a child myself, and yet I'm thinking about how if life had just been slightly different that girl could have gone from being my student to being one of thousands of child martyrs. I am heartbroken from seeing all of these horrors, and from knowing that I am contributing to it.

The atrocities in Palestine must be stopped. Over 30,000 Palestinians have been killed, over half of Gaza is starving, and 90% of Gazans do not have one meal each day. We are paying for these war crimes through our federal tax dollars instead of what our community needs. Redwood City must pass the community's proposed ceasefire resolution to demand an end to these human rights abuses. Similar resolutions have been passed in San Francisco, Richmond, and Oakland.

A local call for peace from the Council will bring together Redwood City residents of all faiths, and ensure the President and Representative Kevin Mullin listen to us. Over 2/3 of Americans support an immediate permanent ceasefire. Redwood City cannot remain silent on this issue, especially as many of our families and loved ones are being killed or forced to suffer in

Palestine.

The children and the teenagers, me and that 9 year old girl, are the future. What you and other people in power are doing now will affect us for the rest of your lives. Listen to the children. We are yelling at the top of our lungs. Wanting to stop the slaughter of kids just like us isn't controversial, It's not even political. It's just human. If you can claim to care about the people living in your county, how can you not care about people just like them who just happened to be born in Occupied Palestine. How can you claim to care about us when you don't listen to us? Do the right thing, do the human thing. Call for an immediate and permanent ceasefire. NOW.

Sincerely,  
Raine

Redwood City Public Comment ,

Dear Redwood City leadership,

As a local Bay Area resident, high school teacher, and compassionate human being, I am extremely distressed at the US government's ongoing support for Israel's genocide in Gaza. The state of national politics in our country is reaching new lows of corruption as we witness the Biden administration's willingness to enable the murder of tens of thousands of civilians, subject 2 million people to starvation, etc, for the sake of a political calculation.

Our nation's support for the genocide loses sight of the fundamental moral reality that this genocide is WRONG even though it might be politically convenient for some purposes.

At the local level it is extremely important that we stand up for what is right, good and humane, and pressure our nation's leaders from the local level on up.

The atrocities in Palestine must be stopped. Over 30,000 Palestinians have been killed, over half of Gaza is starving, and 90% of Gazans do not have one meal each day. We are paying for these war crimes through our federal tax dollars instead of what our community needs. Redwood City Public Comment ,

I am proud parent of 3 children living in Bay Area. Our cultural root is from South East Asia. My children are deeply disheartened hearing many of their school friends's family murdered by israel. And many who are still alive are starved and under threat to be murdered as well. My children sees the reality on the ground from their social media how sad the situation is. And this is not only affecting our family, but also our South East Asian community living in Bay Area. And as school parents, we are very concerned that there are people promoting killing school age children. If we don't make effort to stop the violence, it is undestood by public that it is OK to kill school age children. That politician and policy makers are approving the killing of children. What seed of evil believe that we are planting right now in our children and school education system. We are 30K lives late, and we must stop this murder of families of our residents.

Support Ceasefire, and stop the murder of children from weapons and forced starvation.

Sincerely,

Yusuf Kurniawan

Dear Mayor Gee and respected council members,

I am writing to you as a Redwood City resident of many years. My kids go to public schools. You have probably already heard many speeches filled with hate and a lot of misinformation about Israel. Word genocide probably was said more than you can count. Misinformation is very damaging and most people do not bother to learn facts, history, or even know what the definition of genocide is. And what you can probably see- is how much hate and division exists between residents of our small city, thousands miles from the conflict itself. We need to stay away from far away conflicts and concentrate on healing our local society. We do not want foreign conflicts, be it Russia-Ukraine war, Armenia- Azarbsizan war, Hamas- Israel war or any other far away tragedies to be brought for a local wars here in Redwood City .Our taxes stay local and so should our decisions stay local as well. Please keep our city hate free.

Respectfully,  
Natasha Beilin

Redwood City Public Comment ,

The atrocities in Palestine must be stopped. Over 30,000 Palestinians have been killed, over half of Gaza is starving, and 90% of Gazans do not have one meal each day. We are paying for these war crimes through our federal tax dollars instead of what our community needs. Redwood City must pass the community's proposed ceasefire resolution to demand an end to these human rights abuses. Similar resolutions have been passed in San Francisco, Richmond, and Oakland.

A local call for peace from the Council will bring together Redwood City residents of all faiths, and ensure the President and Representative Kevin Mullin listen to us. Over 2/3 of Americans support an immediate permanent ceasefire. Redwood City cannot remain silent on this issue, especially as many of our families and loved ones are being killed or forced to suffer in Palestine.

Sincerely,

Ajathullah Sirajudeen

Redwood City Public Comment ,

Hi,

My name is Rana's Zabaneh. I have been a member or Redwood City for over twenty years. I am a Palestinian Christian. My children attended At Pius school. I personally know friends, and family in Gaza that have been killed due to the discriminatory attack on the innocent of civilians in Gaza . I know the people in Redwood City and have spoke to many of them. 80% of Americans want, and are demanding, a cease, fire . The atrocities in Palestine must be stopped. Over 30,000 Palestinians have been killed, over half of Gaza is starving, and 90% of Gazans do not have one meal each day. We are paying for these war crimes through our federal tax dollars instead of what our community needs. Redwood City must pass the community's proposed ceasefire resolution to demand an end to these human rights abuses. Similar resolutions have been passed in San Francisco, Richmond, and Oakland.

A local call for peace from the Council will bring together Redwood City residents of all faiths, and ensure the President and Representative Kevin Mullin listen to us. Over 2/3 of Americans support an immediate permanent ceasefire. Redwood City cannot remain silent on this issue, especially as many of our families and loved ones are being killed or forced to suffer in Palestine.

Sincerely,  
Rana zabaneh

Redwood City Public Comment ,

The atrocities in Palestine must be stopped. Over 30,000 Palestinians have been killed, over half of Gaza is starving, and 90% of Gazans do not have one meal each day. We are paying for these war crimes through our federal tax dollars instead of what our community needs. Redwood City must pass the community's proposed ceasefire resolution to demand an end to these human rights abuses. Similar resolutions have been passed in San Francisco, Richmond, and Oakland.

A local call for peace from the Council will bring together Redwood City residents of all faiths, and ensure the President and Representative Kevin Mullin listen to us. Over 2/3 of Americans support an immediate permanent ceasefire. Redwood City cannot remain silent on this issue, especially as many of our families and loved ones are being killed or forced to suffer in Palestine.

Sincerely,

Redwood City Public Comment ,

Children, women and innocent civilians in Palestine are losing their lives, dying from hunger and disease and suffering under a savage military aggression by the extremist Israeli government to no fault on their own. Over 30,000 Palestinians have been killed, over half of Gaza is starving, and 90% of Gazans do not have one meal each day. We are paying for these war crimes through our federal tax dollars instead of spending the money on our community needs. Israel is using US arms and equipment for indiscriminate killing and destruction of churches, schools, hospitals, universities, houses and infrastructure.

These arms are exterminating entire communities and reducing neighborhoods into rubble. We all have the morale imperative to act. Not acting and speaking make us complicit to this human genocide.

Redwood City must pass the community's proposed ceasefire resolution to demand an end to these human rights abuses. Similar resolutions have been passed in San Francisco, Richmond, and Oakland.

A local call for peace from the Council will bring together Redwood City residents of all faiths, and ensure the President and Representative Kevin Mullin listen to us. Over 2/3 of Americans support an immediate permanent ceasefire. Redwood City cannot remain silent on this issue. You must stand for what is right and have the courage to speak out for justice for all.

Redwood City Public Comment ,

As a California resident since birth and good friend of a Redwood City resident, I ask for Redwood City to pass a ceasefire resolution. The atrocities in Palestine must be stopped. Over 30,000 Palestinians have been killed, over half of Gaza is starving, and 90% of Gazans do not have one meal each day. We are paying for these war crimes through our federal tax dollars instead of what our community needs. Redwood City must pass the community's proposed ceasefire resolution to demand an end to these human rights abuses with our money. Similar resolutions have been passed in San Francisco, Richmond, and Oakland.

A local call for peace from the Council will bring together Redwood City residents of all faiths, and ensure the President and Representative Kevin Mullin listen to us. Even for my friends and I who do not have relatives in Palestine or Israel, the pain and guilt we are feeling as we watch the genocide is unexpressible. As I look at my younger brother, I can't imagine how 6-year-old Hind Rajab, may God have mercy on her, felt when surrounded and then murdered by Israeli troops. So many students in our high schools cannot understand how kids in Gaza, which has a literacy rate in the 90s, are publicly denied an education or future beyond occupation. Over 2/3 of Americans support an immediate permanent ceasefire. Redwood City cannot remain silent on this issue, especially as some of our families and loved ones are being killed or forced to suffer in Palestine. A ceasefire resolution would bring the community together in such trying times and remind us how we can rely on each other for support. This Women's History Month, in honor of International Women's Day, let's show that we stand united against this "war on women" (UN Women).

Sincerely,

Redwood City Public Comment ,

The atrocities in Palestine must be stopped. Over 30,000 Palestinians have been killed, over half of Gaza is starving, and 90% of Gazans do not have one meal each day. We are paying for these war crimes through our federal tax dollars instead of what our community needs. Redwood City must pass the community's proposed ceasefire resolution to demand an end to these human rights abuses. Similar resolutions have been passed in San Francisco, Richmond, and Oakland.

Redwood City Public Comment ,

Hello,

My name is Ibrahim, and on behalf of myself, my 2 year old daughter Miya and my wife Natasha I implore you to pass the community proposed ceasefire resolution demanding an end to the devastating disaster happening in Gaza right now, paid for by our tax dollars.

As a resident and home owner in Redwood City (where I plan to grow and raise my family for years to come), we must stand together to defend the countless children at risk of murder, injury, starvation and abuse in Gaza. Every morning when I look my small daughter in the eyes my heart breaks thinking about the children of Gaza who are going through an experience no child should ever know.

We must do everything and anything in our power to stand up and loudly declare that Redwood City stands with humanity. Please support this resolution. I beg you.

Sincerely,  
Ibrahim Shaikh

Redwood City Public Comment ,

Hello

I have worked in redwood city for many years. It's a beautiful community but it's now becoming ugly for me. The idea that my tax dollars and weapons built by my country are being used to kill children is heart breaking.

I have friends and neighbors who have lost relatives. 30,000 dead! If we do nothing, how will we sleep? How will we look ourselves in the mirror?

I look to the council to show better and more principled leadership than the President and Representative Kevin Mullin.

Pass the ceasefire resolution. Do the right thing and make us proud.

Redwood City Public Comment ,

Hello Redwood City Council,

I am a resident & voter in the Bay Area. There is a growing divide between the wishes of the constituency and the stances of our representatives. Much of us feel we have been robbed of our opinion in foreign policy and how we spend our taxes. Many residents in Redwood City have family in Gaza who have been killed, how are they supposed to feel? What should they want? Much of the constituency wants our representatives to weigh in on the U.S. foreign policy at this historic time in our country.

The majority of Gaza is facing famine, dependent on aid trucks and 30k people in Gaza have been killed. Half of whom are children.

There is already support for the Palestinian cause backed by the city in other constituencies such as San Francisco, Richmond, & Oakland. Rest assured by adding your name to this list, you are earning the respect of your constituency and many Americans across this state and country. This will bring together Redwood City residents of all backgrounds and ensure our representatives listen to us. The majority of the constituency, Californians, & Americans support a ceasefire. Redwood City cannot remain silent on this issue, especially as many of our families and loved ones are being killed or forced to suffer in Palestine.

Sincerely,  
Dan Smith

The atrocities in Palestine must be stopped. Over 30,000 Palestinians have been killed, over half of Gaza is starving, and 90% of Gazans do not have one meal each day. We are paying for these war crimes through our federal tax dollars instead of what our community needs. Redwood City must pass the community's proposed ceasefire resolution to demand an end to these human rights abuses. Similar resolutions have been passed in San Francisco, Richmond, and Oakland.

A local call for peace from the Council will bring together Redwood City residents of all faiths, and ensure the President and Representative Kevin Mullin listen to us. Over 2/3 of Americans support an immediate permanent ceasefire. Redwood City cannot remain silent on this issue, especially as many of our families and loved ones are being killed or forced to suffer in Palestine.

Sincerely,

Jonathan Kocjan

Redwood City Public Comment ,

Ceasefire means that Israel stops defending itself. It means more murder and rape of civilians. Redwood City has no voice in ceasefire of a war on the other side of the world that was started by Gaza and now that they don't like the outcome come asking for help of cities around the US. The crowd that will show up at the council meeting is guided and payed for by foreign interest. They are told what to say and how to say it.

See here:

[https://docs.google.com/document/d/1NEdHdy3P\\_FMlam0ym5DfWgQbiQomsmCsU0pxXkV2ACQ/edit](https://docs.google.com/document/d/1NEdHdy3P_FMlam0ym5DfWgQbiQomsmCsU0pxXkV2ACQ/edit)

I am not a Redwood City resident but employee people from Redwood City at my company.

I hope you don't fall into the manipulation of foreign interests that have nothing do with our city and nothing to do with peace.

Best regards

I am a resident of Redwood City urging you to reject outside attempts to adopt divisive resolutions about the Israel-Hamas War.

As antisemitism and Islamophobia continue to escalate in the Bay Area, the introduction of one-sided resolutions about the Israel-Hamas War will only further inflame tensions between already traumatized Muslim and Jewish communities and create a forum for hate.

As the whole country witnessed in Oakland and Richmond, the consideration of these divisive resolutions results in hours of public comment plagued by antisemitic jeering and hateful conspiracy theories, as well as general confusion and lack of decorum.

During this time of rising hate and antisemitism, I'm asking you to lead with empathy and ensure all local residents feel supported and welcomed. The ongoing war between Israel and Hamas has deeply impacted many members of our community. Many of us are in mourning. Inaccurate and one-sided resolutions will not solve the conflict or bring us any closer to peace. We must bring our community together – not pull ourselves apart.

Thanks for your compassion and understanding.

With gratitude.

Tal Shalon

As a local Jewish resident, a former middle school teacher and a current higher education administrator, I'm urging you to support the community ceasefire resolution. Redwood City residents have family directly impacted by the deliberate bombing and starvation of Palestinian civilians, and I've seen the impact on my own students of rising Islamophobia and anti-Arab racism as well - we must do everything we can to advocate for a ceasefire to save lives and allow our communities can recover from this devastation.

Some vocal institutions may seek to paint a ceasefire as somehow antisemitic and advocate instead for continued bombing and starvation - please know you do not need to listen to them, you can listen to your conscience and join the vast majority of Americans, including the people you represent, in calling for ceasefire.

Please show your constituents that you stand for peace and against genocide, and join San Francisco, Richmond, and Oakland in passing the community's ceasefire resolution.

Redwood City Public Comment ,

Everyday, hearing the news happening in Gaza and Rafah and all over Palestine is personally traumatizing. Learning about the tragedies and recognizing my own guilt as a financial accomplice in this genocide affects the mental health of my family, friends, and myself. Even though this is a small step, supporting the ceasefire resolution is one that you must take to prove your humanity.

This is not a war. This is a genocide. I do not need to remind you of the number of days that this massacre has been going on, how many Palestinian children have been murdered, and how many houses have been bombed. I do not need to remind you that this began before October 7-- that the far-right Israeli government has been enforcing an apartheid for decades, depriving Palestinians of electricity, food, and water, and harassing them through IDF enforcement. I am sure that as a public officer you make it your duty to be unbiased and well-informed, as well as responsive to your constituents.

We always imagine what it must have been like to be present in the momentous decisions in our nation's past. We continuously assert that had we been alive and able to make decisions during that time, we would have done our part to prevent atrocities like the Holocaust, the massacre of Native Americans, and the era of Southern lynching against black Americans. Now is the time for action. We need to show the world that our county stood on the right side of history.

Sincerely,

My name is Nelly Husary and I am a first generation student at Canada college in Redwood City. I am from Palestine decent and my grandpa and grandma were removed from their homes and had everything taken from them in 1948. Today I have the privilege to live in United States and make my grandparents story heard.

Throughout my life I never had the chance to learn about my Palestinian heritage at school, or through the news but instead discriminated against and never having a country to call home. For my grandparents and my family whose land was taken from them I am here fighting for not only a ceasefire but respect for the Palestinian people.

A local call for peace from the Council will bring together Redwood City residents of all faiths, and ensure the President and Representative Kevin Mullin listen to us.

Redwood City Public Comment ,

Dear Redwood City Councilmembers,

I urge you to vote YES on Agenda Item 10A.

The ongoing crisis in Gaza is not only an “international” issue, but also a national and indeed local issue. Palestinian Americans, including residents of Redwood City, are directly impacted by the violence being inflicted on their family members and loved ones in the Middle East. Imagine the anguish of Redwood City residents who are living with the knowledge that their mothers, fathers, children, brothers, sisters, grandparents, and grandchildren are trapped in an environment where nine out of ten families do not have even one meal a day, where half of the population is in fact starving, where even clean water is not available, and where – as pointed out by Médecins Sans Frontières – there is effectively no health system left, as all major hospitals have collapsed due to Israeli military operations, and civilians who are injured, starving, or dying have little to no access to medical care.

Please vote YES to call for an immediate and permanent ceasefire, the release of all hostages and political prisoners on both sides, and the unrestricted entry of humanitarian assistance to Gaza.

Sincerely,

Malathi Iyengar

This Council does not set foreign policy, but it is responsible for building community in Redwood City. Debating the war in Gaza tears the community apart.

If we **must** discuss the war, remember that last October 7 Hamas fighters stormed Israeli villages with written orders to kill everyone — men, women, children and even babies — except for some to be captured as bargaining chips. They killed over 1200. The dead were later found raped, tortured, butchered, and sometimes beheaded. Over 240 were taken hostage, the youngest then 8 months old. Hamas still imprisons over 130 in tunnels under Gaza, but refuses even to say how many remain alive.

Recall too that a ceasefire was **already** in effect that day. Hamas signed it last May while deep into planning the attack. Once ready, Hamas shredded that ceasefire.

Since grabbing power in 2007, Hamas has started a war roughly every three years. Its leaders vowed that October 7 was only “a dress rehearsal”. They would attack “again and again”.

A ceasefire that leaves Hamas in power and does not free all hostages cannot bring peace.

**Subject:** RE: Support for a Ceasefire in Gaza  
**To:** <[council@redwoodcity.org](mailto:council@redwoodcity.org)>

March 9, 2024

*RE: Support for a Ceasefire in Gaza*

Dear City Council of Redwood City:

We write to urge you to adopt a resolution calling for a permanent, unconditional ceasefire to end the U.S.-enabled genocidal assault on the people of Gaza being carried out by Israel. We, the Bay Area Legal Aid Workers, UAW Local 2320 (BALAW), have called for an immediate, permanent ceasefire, as has the local union which we are part of, the National

Organization of Legal Service Workers, UAW Local 2320 (NOLSW).

NOLSW is labor union with over 4,500 members, some of who live or work in San Mateo County, including in Redwood City. NOLSW members include residents, constituents, community members, and workers that serve Redwood City's and San Mateo County's most vulnerable communities: low-income and working-class people, seniors, people with disabilities, non-English speakers, people experiencing homelessness, and others who have faced various forms of systemic adversity.

### **UAW Call for Immediate and Permanent Ceasefire**

On December 1, 2023, United Auto Workers International (UAW), our international union, called for a ceasefire in Gaza and announced that the International Executive Board would be forming a Divestment and Just Transition working group to study the history of Israel and Palestine, our union's economic ties to the conflict, and explore how we can have a just transition for US workers from war to peace. On December 25, 2023, BALAW passed a [resolution calling for an immediate ceasefire in Gaza, an end to U.S. aid to Israel and the occupation of Palestine, and endorsed the Boycott, Divestment, Sanctions movement \(BDS\)](#). On February 3, 2023, NOLSW followed suit and passed a similar resolution demanding, *inter alia*, a [cessation of all U.S. aid to Israel and an immediate end to the Israeli assault and siege on Gaza](#). Together, we stand in solidarity with the Palestine Trade Unions and [endorse their demands](#).

Many in our communities are experiencing tremendous grief and fear as we witness unspeakable violence in Palestine and Israel and a rise in Islamophobia and antisemitism in the United States. Our resolutions aimed at bringing our union together in alignment with the values that have called each of us to legal aid work and that are articulated in our bylaws.

### **Urging You to Support Ceasefire Resolution**

We urge you to pass a resolution calling for a sustained, permanent ceasefire in Gaza, an end to U.S. aid to Israel, the entry of adequate humanitarian aid into Palestine, the release of hostages and the thousands of Palestinians imprisoned in Israeli jails and detention centers, and the end to the occupation of Palestine. Critically, the resolution should urge the Biden Administration and Congress to call for a ceasefire. We must do all we can to end the human suffering taking place each day.

Above all, we hope to convey our sense of urgency and to emphasize the power of our voices when we speak together as one. Our bargaining unit and local union are part of a labor movement that crosses borders and a lineage of activism for civil and human rights and against racism and apartheid.

You represent thousands of voices, and as the number of cities joining this movement grows, the effort to prevent human loss and suffering will gain momentum. This historic moment calls on us to raise our collective voice for peace and stand in solidarity with the

Palestinian people.

With that, we call for you to call for a permanent ceasefire in Gaza.

Respectfully Submitted,

Bay Area Legal Aid Workers  
UAW Local 2320

The atrocities in Palestine must be stopped. Over 30,000 Palestinians have been killed, over half of Gaza is starving, and 90% of Gazans do not have one meal each day. We are paying for these war crimes through our federal tax dollars instead of what our community needs. Redwood City must pass the community's proposed ceasefire resolution to demand an end to these human rights abuses. Similar resolutions have been passed in San Francisco, Richmond, and Oakland.

A local call for peace from the Council will bring together Redwood City residents of all faiths, and ensure the President and Representative Kevin Mullin listen to us. Over 2/3 of Americans support an immediate permanent ceasefire. Redwood City cannot remain silent on this issue, especially as many of our families and loved ones are being killed or forced to suffer in Palestine.

Redwood City Public Comment ,

Dear Councilmembers,

I live just north of Eaton Ave, and my family enjoys that proximity to Redwood City's rich and diverse cultural and commercial environment. I'm writing to ask you to please vote for the Community Ceasefire Resolution. Over 30,000 Palestinians have been killed in Gaza, and at least 8,000 remain trapped under the ruins of their bombed homes. Half of Gaza is actively being starved, and 90% of Gazans do not have access to even one meal per day. Two mothers in Gaza have been killed every hour, on average, for months. Children are dying of starvation and as a result of Israel's wanton destruction of civil and medical infrastructure throughout the Gaza Strip. We are paying for these war crimes with our federal tax dollars, even though more than 2/3 of Americans want an immediate and permanent ceasefire. Please help to amplify our voices so that President Biden and Representative Kevin Mullin will listen to us. Similar ceasefire resolutions have been passed in San Francisco, Richmond, and Oakland, as well as other cities across the US. Redwood City cannot remain silent on this issue.

A call for peace from the Council will bring together Redwood City residents of all faiths. As the world watches these merciless attacks on Gaza's civilians, Americans of Arab and Muslim descent like myself can't help but feel as though the lives of people like us are not valued to the same degree as other lives. Likewise it seems obvious that this onslaught, now entering its sixth month, will not do anything to make Israelis or Jews safe in the long term. We all must do what we can to put a stop to this horrific injustice, yet our national leaders are abetting the slaughter. Let's join the chorus of cities who are letting them know that the will of the people says it's time for a change of policy, and an immediate and permanent ceasefire.

Sincerely,  
Amr Toppozada

Redwood City Public Comment ,

Dear Redwood City Councilmembers,

I hope this message finds you well. My name is Aneeqa Abid, a proud Muslim and Stanford student. I have loved neighboring Redwood city and have frequently visited the city and city council building over the last 6 years. I am reaching out to you today not just as a resident but as someone deeply affected by the ongoing conflict in Palestine.

As a Muslim and a Stanford student, the situation in Palestine is more than a distant headline; it hits close to home. I have classmates from Gaza who have lost everything. The stories I hear are heartbreaking, and the images of devastation have left a lasting impact on me, thousands of other Stanford students, and millions of Americans.

I am writing to you with a heavy heart, urging you to support the ceasefire resolution for deeply personal reasons:

**Local Impact:** Families of Redwood City residents, including my classmates, are enduring unimaginable losses. We need our community to stand united against this violence.

**Financial Responsibility:** Millions of our federal taxes annually supports Israel's military. Approving a ceasefire is not just a moral choice; it's a step towards responsible fiscal decisions.

**Community Unity:** A ceasefire is supported by over 2/3 of Americans. It's time to come together for peace and reject hate that threatens our community fabric.

I implore you to be our voice, echoing the plea for an end to the escalating conflict. Your support for the ceasefire resolution is not just a political stance; it's a commitment to the well-being of our community and the broader human family.

Thank you for your understanding and compassion.

Sincerely,

Aneeqa Abid

My name is Michael Sanford and moved to the Bay Area in 2018. I am a father of 4, husband and software engineer. I have spent time in Jerusalem, the West Bank and Gaza.

I want you to know that there is a humanitarian catastrophe and a rate of civilian death and destruction we have not seen since World War II.

The Middle East conflict may be considered complex by some, but the Oct 7 response is not. It is a far disproportionate response and America is now engaged in a proxy genocide. Just like freeing slaves in the 19th century, just like supporting civil rights in the 20th century, stopping America's genocide is a pillar of who we are as a society.

It is important to stop my government, at every level, from committing the crime of all crimes.

Thank you for listening.

Sincerely,  
- Michael Sanford

Redwood City Public Comment ,

Good afternoon,

I am reaching out from San Jose, CA as a regular voter. A ceasefire is important because humanity is important. Nobody deserves to be treated as less than, to feel unsafe, and to be brutally murdered; especially in their place of living. They deserve to be treated with dignity and respect. With access to basic human needs and resources including shelter, clothing, food, water, education, and work. They deserve hope for the present and for the future. They deserve love, compassion, empathy, and support from their neighbors around the world. This genocide should no longer be ignored or placed on the back burner. It must be recognized, addressed, and stopped NOW!

The atrocities in Palestine must be stopped. Over 30,000 Palestinians have been killed, over half of Gaza is starving, and 90% of Gazans do not have one meal each day. We are paying for these war crimes through our federal tax dollars instead of what our community needs. As a resident of Redwood City and an Indigenous woman, I urge the Redwood City Council to approve a resolution for ceasefire in Palestine at the 3/11 city council meeting. It is devastating to bear witness to the atrocities being committed against Palestinians with the money of American taxpayers. We must make our voices heard to enact change within the Biden administration to end this inhumanity and violence.

The atrocities in Palestine must be stopped. Over 30,000 Palestinians have been killed, over half of Gaza is starving, and 90% of Gazans do not have one meal each day. My name is Liat Dremer and I have been a bay area resident for the last 8 years . I am urging you to reject outside attempts to adopt divisive resolutions about the Israel-Hamas War.

The introduction of one-sided resolutions about the Israel-Hamas War will only further inflame tensions between already traumatized Muslim and Jewish communities and create a forum for hate.

During this time of rising hate and antisemitism, I'm asking you to lead with empathy and ensure all local residents feel supported and welcomed. The ongoing war between Israel and Hamas has deeply impacted many members of our community. Many of us are in mourning and have a close relationship to the Israeli victims. Inaccurate and one-sided resolutions will not solve the conflict or bring us any closer to peace. We must bring our community together – not pull ourselves apart.

We should all unite against Hamas, and the terror it brings for both Palestinian and Israelies.

Thanks for your compassion and understanding.

Liat

Redwood City Public Comment ,

The atrocities in Palestine must be stopped. Over 30,000 Palestinians have been killed, over half of Gaza is starving, and 90% of Gazans do not have one meal each day. We are paying for these war crimes through our federal tax dollars instead of what our community needs. Redwood City must pass the community's proposed ceasefire resolution to demand an end to these human rights abuses. Similar resolutions have been passed in San Francisco, Richmond, and Oakland.

A local call for peace from the Council will bring together Redwood City residents of all faiths, and ensure the President and Representative Kevin Mullin listen to us. Over 2/3 of Americans support an immediate permanent ceasefire. Redwood City cannot remain silent on this issue, especially as many of our families and loved ones are being killed or forced to suffer in Palestine.

Sincerely,

Dear Mayor Gee, and Redwood City Councilmembers,

I am a citizen of the nearby city of San Jose. All around us (San Jose, Palo Alto, Los Gatos, San Francisco, Santa Clara) there is tremendous pressure on Cities and Counties by pro-Palestinians for ceasefire resolutions.

These resolutions cause sadness, pain, and division among local communities and provide no benefit to the conflict in the middle east. Not because cease fire is a bad thing. By cease fire they don't mean peace. They don't call for peace. They call for a cease fire so that Hamas can continue its mission to kill all Israelis, then all Jews, then all western civilization, then all democracy.

Note that the pro-Palestinian agenda starts with these resolutions and continue with additional harmful steps, such as firing whoever doesn't align with their beliefs. For example, after the Board of Education of Santa Clara County passed a ceasefire resolution, the Board's president moved to fire the highly competent, loved, and respected district superintendent.

Don't be pressured into taking an Israel or Palestinian side in this war, as it's a war against terror. Don't be pressured to pass any resolution on an international highly complex issue.

For more information, please listen to the Mayor of Orland Park in Illinois clearly summarizing the history at the end of a long City Council meeting.

[\(10\) \(\(\(David Lange\)\)\) on X: "The Mayor of Orland Park, Illinois @KeithPekau's response to several residents demanding that the board pass a resolution for a ceasefire in #Gaza, is a thing of beauty! More here: <https://t.co/ykbiCmvRYv> <https://t.co/b1wsJWAWfG>" / X \(twitter.com\)](#)

Thank you for allowing me to comment.

Redwood City Public Comment ,

I am a Redwood City resident since 2020, and through my work as a civil engineer I have also been involved in multiple redevelopment projects within the Redwood City area. I am asking City Council to vote in favor of the ceasefire resolution proposed by the community.

Each day, I wake up to photos and videos of human beings in Gaza just like us suffering from malnutrition, disease, and constant bombardment and sniper attacks. I struggle to focus on my daily tasks at work and home knowing this horror is taking place with the funding and diplomatic cooperation of the United States. As a Jewish American, I am additionally pained that these atrocities are framed as necessary to Jewish safety.

A ceasefire resolution in Redwood City would help unite our community around our shared respect for human life, and would also demonstrate to Redwood City residents that our city is an inclusive place where all of us are welcome. I believe the resolution proposed acknowledges the suffering of both Israelis and Palestinians, while also clearly stating that the ongoing destruction of Gaza's people and infrastructure must end immediately.

Sincerely,

Alice Robinson

Redwood City Public Comment ,

My name is Tristan Day and I've lived in Redwood City for four years and regularly vote.

I urge the Council to vote for a resolution calling for an immediate ceasefire.

I am disturbed that over \$1 million of federal tax revenue goes to Israel to continue the genocide against Palestinians in Gaza, some of whom are family members of my neighbors in Redwood City.

This means our tax dollars are effectively being used to murder our own people and I want our City Council to call on our federal government to put an end to it.

Each life is precious and I like that the proposed resolution calls for action against hate of all kinds because hate only begets more hate.

Please realize that anything our government allows to be done to someone else can be done to us and vote yes on the proposed ceasefire resolution.

Sincerely,  
Tristan Day

Please do not put a call for a ceasefire in Gaza on the Redwood City Council agenda.

You are being used by these political activists as tools to spread their political agenda. It is clear that these local resolutions have no jurisdiction what-so-ever, but they attempt to coerce the public to align with a political agenda.

Make no mistake about it – this is a propaganda tactic that uses local city councilmen and women as pawns.

This is why these activists yell, scream, stage die-ins, and alize and disrupt. Do not give in to propaganda. ONLY LOCAL RESOLUTIONS AND LOCAL LEGISLATION. We need better roads, hospitals, libraries, affordable housing, parks, etc. Not to delve into international issues.

Thank you for reading this

My name is Gato K. Rivera. I have lived in Redwood City District 4, for nearly 35 years. I urge you to pass the community's ceasefire resolution without amendments. The latest death toll stands at 31,470 Palestinians and about 1,139 people killed in Israel since Oct 7, 2023. Palestinians women and children account for over 20,700 of the dead. More than 72,654 people have been injured in Gaza and they're in desperate need of medical assistants and humanitarian aid that the Israeli government is limiting and/or blocking from entering hospitals or makeshift medical centers.

"WHERE IS THE HUMANITY HERE?"

This resolution is fair and simply: - **Stop the killing of innocent civilians - Support desperately needed humanitarian aid in the region - Return hostages on both sides"**

Sincerely,

Gato K. Rivera

Dear Redwood City Council Members,

I was disappointed to see that our beloved city of Redwood City is considering falling prey to the divisive agenda of a small group of people in considering a Gaza Ceasefire agenda item. As has been the case in every single other city council where this meaningless and divisive agenda item has been brought, it does nothing other than waste your time that should be spent on relevant city council matters and then create hurt and anger in the community.

Please keep complex international matters off the city council agenda.

Thank you for staying focused on taking care of San Mateo.

Warm regards,  
Irene Moff

Hello Council Members,

I understand that the Council is considering an agenda item for a cease fire in the Gaza War. I strongly urge you to decide against it.

The world for Israelis and Gazans changed on October 7th. Israelis were massacred, hostages are missing, thousands have died in Gaza and thousands more are in danger, the Hamas leadership is unreliable and the Israeli one is a mess, one ceasefire was attempted and several more have been negotiated without success. The situation is traumatic, heart breaking and feels hopeless. So many people are hurting.

I realize that the intention of a ceasefire resolution is to call attention to a devastating situation out of our direct control. However, the result of such a ceasefire is divisiveness and spreading of hatred in the community. In response to the war in Gaza, anti semitism and islamophobia has increased around the world and I would hate to see it come to Redwood City - where you prioritize inclusivity and equity. We have seen that it's hard for people to separate the Jewish community from the war in Gaza, and I believe that a ceasefire declaration would target the Jewish community and make many feel nervous in Redwood City. And I believe that such a ceasefire is beyond the scope and mission of the Council.

Thank you for keeping Redwood City a safe place for all and I hope you will agree to avoid the hate speech and divisiveness similar efforts have created in other Bay Area cities.

Thank you for your time.  
~Sigalle Michael

Redwood City Public Comment ,

Hello, my name is Sanjita & I am a constituent of your city council. Given my masters in public health, I am painfully aware of the dire humanitarian situation in Gaza — & the grave potential of death & long-term disability facing the population should the circumstances not change: something that can rapidly develop into another global pandemic.

The rise in mortality rates for easily treatable diseases like cholera & hepatitis B in Gaza is caused specifically by the lack of clean water in the area, something caused directly by Israel demolishing Palestinian aquifers & controlling water distribution in the area, which has limited clean water access to 5x less than the accepted international EMERGENCY limit of 15liters per day (<https://www.pbs.org/newshour/world/in-gazas-widening-humanitarian-crisis-water-access-becomes-dire>)

Should this continue, mutation rates may create devastating strains of previously treatable diseases that spill over into other countries, including our own.

Additionally, our Palestinian peers deserve to feel supported & safe in our community: something that cannot happen so long as our tax dollars continue to fund Palestinian genocide.

Eliminating hate in all forms means recognizing that our city has a responsibility to call for a ceasefire, humanitarian aid, & release of hostages on both sides as other California cities like Davis, Oakland, & Richmond have — since it is our taxes that have allowed Israel to kill over 20,000 Palestinians. Love, peace, safety, & justice for all can only come with an immediate ceasefire & mutual adherence to international law, as well as immediate humanitarian aid to Gaza, who desperately needs it. This is what Okuzumi's resolution calls for & what is needed at this time.

Weaker proposals do not call for a clear & immediate resolution for ceasefire, nor do they condemn Israel's actions despite the fact that they are facing multiple charges at the ICC for genocide. They do not call for a redirection of US funds away from Israel's actions. They do not even consider the additional reports regarding sexual violence on October 7th, which have since been proven to be based on no evidence or reports from the hostages themselves (<https://new.thecradle.co/articles/israeli-police-unable-to-verify-hamas-rape-stories> & <https://www.palestinechronicle.com/we-cant-find-witnesses-israeli-police-contradicts-nyt-report-on-oct-7-sexual-assaults/>)

A two-state solution asks the victims of a genocide to live side by side with their oppressors of

the last 75+ years — people who have posted videos of themselves signing missiles & laughing, calling Palestinians "savage animals", and cheering as bombs fall on hospitals & schools. Weaker proposals fall short of supporting our local community. What we need right now is an immediate end to the violence & to support our Palestinian peers. Note that supporting Palestinians in no way encourages hate against any other person, especially in conjunction with this resolution for an immediate ceasefire & humanitarian aid: something which can only stand to protect all civilians affected by the bombing & deteriorating conditions in Gaza.

I strongly urge you to support this resolution at your Central Committee meeting this Monday (3/11). This resolution is stronger, grounded in the facts of this tragedy, and the best way to support our local community as we join together to call for an immediate & permanent ceasefire.

I will not be willing to vote for any representative who does not vote for this measure. Thank you.

Sincerely,  
Sanjita Jain

Thank you respected Council Members,

Please do not consider or pass a resolution calling for a permanent bilateral ceasefire in Palestine and Israel.

As a Jew in this community my stomach clenches when I see the latest antisemitic acts. I fear for my security and my family's safety. I have always supported our city and its leaders and I humbly ask for your support as a Jew and as a citizen. We must not stoke hate, neither antisemitism nor Islamophobia. Our community is better than that. The United Against Hate week, which is a critical week in our city, has brought me great comfort and empathy over the years, and I proudly post a window sign. We must stay true to this no matter what comes our way and be unified against antisemitism, racism, and hostility. We must all speak up for religious freedom while condemning hate and vitriol.

Thank you,  
Esther Selk  
District 5

Dear Redwood City Council Members,

I kindly ask you to stay within the scope of your duties and responsibilities.

This description of the duties of members of the City Council is taken directly from the [redwoodcity.org](http://redwoodcity.org) website:

"The City Council consists of seven members and is the governing body elected directly by the residents of Redwood City. As the legislative branch of our local government, the Council makes final decisions on all major city matters and sets city-wide priorities and policies. The Council directs the City Manager to implement these priorities and policies".

As you can see, you should be focused on making the lives of Redwood City residents better. Nowhere in the above job description does it say that you can interject yourselves in international affairs in your official capacity.

Putting on your agenda a resolution that concerns Israel, the only sovereign and democratic country in the Middle East, makes no sense. Why do you use your time to weigh in on things that are not related to the city business? There are many problems facing Redwood City that require the local government's attention.

Agendizing unenforceable resolutions is not what your job description is. There are many other conflicts in the world with far more casualties (just to name a few: Russia invading Ukraine, killings of Christians in Nigeria, armed conflict between Armenia and Azerbaijan, Sudan genocide, persecution of Muslim Uyghurs in China), and yet you choose to focus on Israel who is fighting an existential war and trying to defend itself from genocidal maniacs of Hamas. Read the Hamas charter.

Of course, you have the right to help Arabs in Gaza, but on your own dime and time.

I hope this one-sided antisemitic resolution will not be put on the agenda, and will not distract you from the job you were elected to do.

Sincerely,  
Sophie Magid (Redwood City resident of 26+ years)

Redwood City Public Comment ,

Dear Redwood City Council,

I am a relatively new member of the community, having lived in District 2 of the city for just over two years after moving to the Bay Area from the East Coast. In my time here, I have found Redwood City to be an exceptionally warm, inviting place--a city of year-round cultural programming, lively outdoor dining, bountiful fruit trees, beautiful weather, tidy streets, and friendly people. For me, it has become increasingly synonymous with a feeling of "home", and I hope to establish ever deeper roots here.

I am writing to urge City Council to support Vice Mayor Espinoza-Garnica's proposed resolution calling for a permanent bilateral ceasefire in Palestine and Israel at the upcoming City Council meeting on March 11th. Events occurring halfway around the world might seem distant, but they are affecting our local community every day.

The City has a unique opportunity to bring the community together by adopting a peaceful resolution that acknowledges the physical and mental anguish suffered by people on all sides of the current conflict, speaks out against a continuing cycle of hatred and violence, and opposes wasteful spending of local tax dollars. To me, adopting such a resolution is in keeping with the idea of Redwood City as a safe, inclusive, far-sighted community with international reach.

I strongly encourage the council to adopt it!

Sincerely,  
Alexander Brindle

The atrocities in Palestine must be stopped. Over 30,000 Palestinians have been killed, over half of Gaza is starving, and 90% of Gazans do not have one meal each day. We are paying for these war crimes through our federal tax dollars instead of what our community needs. Redwood City must pass the community's proposed ceasefire resolution to demand an end to these human rights abuses. Similar resolutions have been passed in San Francisco, Richmond, and Oakland.

A local call for peace from the Council will bring together Redwood City residents of all faiths, and ensure the President and Representative Kevin Mullin listen to us. Over 2/3 of Americans support an immediate permanent ceasefire. Redwood City cannot remain silent on this issue, especially as many of our families and loved ones are being killed or forced to suffer in Palestine.

I'm just shocked by recent facts discovered that The NY Times had published falsified information of the 40 beheaded babies and the mass rapes of girls and women. The authors were Israeli spies and former IDF intelligence officers. The ZAKA group that was hired to do the investigation on the ground at multiple kibbutzim made up stories of the attack to inflame tensions both here in the states and in Israel against the Palestinians. The false information was then fed to those same 3 authors of that article. Two of which were let go. The tank shelling on the kibbutzim was ordered by Brigadier General Barak Hiram on Oct. 7th as he admitted it. The Israeli hostages and the Hamas fighters all died because of the targeted tank shelling. Hamas doesn't have tanks. The lone survivor said that she saw their own military shooting at them even when the Hamas fighters gave themselves up. They said they couldn't believe what they were seeing because the soldiers could hear them yelling at them to stop firing at them because hostages were inside. Please don't let this genocide to continue when we know that Israeli officials and politicians have lied.

Sincerely,

Zari Aziz

Redwood City Public Comment ,

Good evening council. I am a longtime resident of Redwood City and a tax paying American.

You should be well aware the high toll of innocent lives taken is too much. The real death toll in Gaza is much higher because unfound bodies are still under the rubble. The main source of funding of this death and destruction is our hard earned tax dollars. We all have blood on our hands and must act to put an end to our participation in genocide.

This is not a religious dispute. Jewish voices for peace have been at the forefront of this national movement for an end to this genocide perpetuated by Israel and American dollars. To be pro Palestinian human rights is not antisemitic infact Palestinians are Semitic and to deny otherwise is racist and antisemetic and this rhetoric from opposition dehumanizes our Palestinian community.

Also a country does not speak for or represent an entire religion or ethnic group; to claim that logic is bigotry.

Please listen to the majority of your constituents along with American voters. We're all watching and will replace you this election if you coward out of this. Have the humanity to act. Ceasefire now.

Thank you for your time,  
Brandon H.

If you ask the majority of Jewish people in Redwood City what they think of these ceasefire resolutions, they will tell you that these resolutions have nothing to do with a desire for peace and are instead part of a larger effort to demonize and de-legitimize the one Jewish state. They will tell you that they feel targeted and afraid, knowing that no other country on Earth is singled out in this way and knowing that overt Jew hatred inevitably accompanies these divisive resolutions.

That's certainly how I feel as a resident of Redwood City with 3 young children. That's certainly how my friend who told me she's too scared to attend this meeting in person feels.

Why are you considering a resolution that your Jewish residents see as divisive at best and hateful at worst? Do you not see how problematic this is? On top of all that, these performative resolutions are completely outside of your purview. Just say no to this. Better yet, consider a motion to prevent any future efforts to hijack the city council for foreign policy agendas.

Thank you.

Redwood City Public Comment ,

Hello,

My name is Laura Grossman. I'm writing as a Jewish resident of the Bay Area with a heavy heart. The atrocities in Palestine must be stopped. Over 30,000 Palestinians have been killed, over half of Gaza is starving, and 90% of Gazans do not have one meal each day. We are paying for these war crimes through our federal tax dollars instead of what our community needs. Redwood City must pass the community's proposed ceasefire resolution to demand an end to these human rights abuses. Similar resolutions have been passed in San Francisco, Richmond, and Oakland.

A local call for peace from the Council will bring together Redwood City residents of all faiths, and ensure the President and Representative Kevin Mullin listen to us. There is much to say about the war between Israel and Hamas, a war that Hamas started. But this meeting is not the place to say any of these things. The city council's role is to focus on local issues such as education and public safety, not comment on international issues. The Jewish community is already facing an unprecedented rise in antisemitism. Our city council should strive to foster unity and focus on initiatives that bring us together not divide us.

Unless you are prepared to adopt resolutions on every international conflict, including between Iran and Saudi Arabia, the Kashmir crisis between India and Pakistan, the conflict between the Democratic Republic of Congo's army and Tutsi rebels, or Ukraine and Russia, or comment on the Sudan humanitarian crisis, then a foreign-relations statement that *specifically* targets the one Jewish state naturally comes off carrying a message that you may not intend. While there may be many loud voices on both sides of this issue, following the temptation to involve a local city council into matters outside of its scope will pit neighbor against neighbor. I strongly urge you NOT to position the city council on either side of a foreign-relations issue. Please decline to introduce or vote on any resolutions regarding the conflict between Israel and Hamas. Thank you.

Dear Council,  
For you to read aloud tonight at your council meeting:

Vice Mayor Espinoza-Garnica's call for a "Bilateral Ceasefire" is meaningless considering the entire second page or her proposed draft is anti-Israel exclusively. The United States supports Israel monetarily because it is in the BEST INTEREST of the United States. Trying to tie US Tax dollars to the war in Gaza is a futile attempt to rile up Republicans who want to save tax dollars for themselves and a talking point for Leftists who truly couldn't care less where the money is spent and only learned of the MENA on TikTok post 10/7 via Hamas propagandists. If you care about this community like I believe you do, do not agendize a ceasefire resolution which is performative and only empowers and emboldens the bussed-in provocateurs desperately trying to alienate your Jewish constituents who want nothing more than a return of our hostages, Hamas no longer in power, and an end to this war.

Bring them home!

Dear council members,

I am a member of the local Jewish community in San Mateo county, respectfully request that you vote NO on agendizing a resolution that addresses the current conflict between Israel and Hamas.

We have seen over and over again how such resolutions create division, serve as platforms for hate speech, and foster unsafe environments.

The ongoing war between Hamas and Israel has impacted many members of our community, many with personal connections to the area.

Personally, there is nothing I want more than this war to end but non-binding ceasefire resolutions will not bring peace, they will however further divide us locally and make some community members feel isolated and afraid. During times of crisis, elected leaders must work to bring people together – not tear us apart, please focus on local issues within your scope and not on international complex affairs.

Sincerely,

Hen Prizant, PhD

Redwood City Public Comment ,

To the RWC Mayor & City Council,

As a 14 year resident of Redwood City (District 4) with two children in RCSD public schools I'm writing to express support for the ceasefire resolution before the board. I am a Jewish woman, married to a Palestinian man and our children are being raised with these dual identities here in RWC. Seeing daily the atrocities occurring in Gaza and the number of Palestinians being killed is extremely upsetting. On the Palestinian side, members of our extended community are directly connected and affected, and generations of trauma are brought to the surface, being now passed to a new generation. On the Jewish side I see the atrocities carried out in my name and funded by my government. As a local voter and resident I urge that Redwood City pass the community's proposed ceasefire resolution to demand an end to these human rights abuses. Similar resolutions have been passed in San Francisco, Richmond, and Oakland, indicating the will of the people, and the morally and socially just thing to do.

A local call for peace from the Council will bring together Redwood City residents of all faiths, including interfaith families like ours, and ensure the President and Representative Kevin Mullin listen to us. Over 2/3 of Americans support an immediate permanent ceasefire. Redwood City cannot remain silent on this issue, especially as many of our families and loved ones are being killed or forced to suffer in Palestine.

Sincerely,

Harmony Younes

Redwood City Public Comment ,

I am a resident of Redwood City, D5, and a lifelong voter. This most recent election, I turned in my ballot, as I do every election, but I did not vote for a Presidential candidate or for many candidates running for office, unless the candidate has taken a clear position in support of a ceasefire to end the most severe human rights crises of our time. The ongoing slaughter of women and children civilians in Gaza at the hands of the IDF with the support of American tax dollars is horrifying. The US is actively arming the Israeli military to commit a genocide, and unless we stand up to this horror and try to stop it, we are complicit in this genocide.

Supporting the ceasefire resolution on the agenda is really the minimum that our local elected leaders should do. We should all be collectively raising our voices everyday in every way possible to stop the killings and stop elected officials from using our tax dollars to aid a genocide.

In reading the resolution, I am reminded of a quote from Elie Wiesel in his Noble Peace Prize acceptance speech: "Neutrality helps the oppressor, never the victim. Silence encourages the tormentor, never the tormented."

Let us not be neutral. Let us take a stand for peace. Let us not be silent. Let us raise our voices to any who will hear that we do not support the war in Gaza, and we demand a ceasefire.

Sincerely,  
Megumi Tsutsui

Redwood City Public Comment ,

Redwood City must come together along with the City Council to support a permanent ceasefire in Palestine. Our tax money is being used to massacre over 30,000 innocent civilians in Gaza, and this horrendous genocide must be stopped. We are witnessing families literally blown apart, children carrying the deceased, parents mourning the unbelievable loss of their children. Children are starving in Gaza while aid is being blocked from reaching them. Over 2/3 of Americans support a ceasefire, and our city needs to come out to show the world that we stand for peace and justice and can not condone this insane violence anymore.

I was born and raised in Redwood City, and so was my husband. We both attended the local elementary schools and Woodside High School. My husband has been a business owner in RWC and we are raising our five children here, three of which currently attend our public schools. We vote in every election and from now on will only support politicians who stand up for peace and a free Palestine.

As I have been watching the horrors in Gaza since October, I am appalled, sickened and haunted every day by what I see in the news and on social media. It is hard to continue living our very privileged life here and know that mothers just like me are losing their children and family. I can not imagine either watching my child being blown up, gravely injured, or starving to death. Nor can I imagine my children being orphaned and having to survive in a dangerous wasteland without me were I to be killed.

Redwood City is a town that is proud of how it supports children and families. We have amazing after school and summer programs for kids, wonderful libraries, and fun family events all year long. We SHOW that we care about children and families...and YET we are not standing in support of Palestine and the innocent people living through a genocide that our tax dollars are funding.

I don't want my money paying for weapons of war and torture. I stand for peace and justice and what is right. I will vote for candidates who do the same. Please stand in solidarity with the majority of Americans (and the world) and vote for a PERMANENT CEASEFIRE. Show Congressman Mullin, Vice President Harris, and President Biden that Redwood City is not afraid to stand for peace and for a FREE PALESTINE!

With passion and conviction,  
Tami Wall

Dear City Council Members,

Did I miss the council passing resolutions on the recent conflicts in Sudan, Ukraine, Yemen, Haiti, Armenia, Myanmar, and Ethiopia?

Will the council also begin passing resolutions on other hot-button geopolitical topics such as the southern border crisis and Central American immigration? Or perhaps you would like to comment on the risks of Chinese espionage?

I am not Jewish nor am I Muslim, but as a resident of Redwood City for 13 years, I urge you not to open Pandora's Box and begin passing resolutions that can only divide the local community.

Thank you.

Sincerely,

Joseph Munaretto

Redwood City Public Comment ,

The atrocities in Palestine must be stopped. Over 30,000 Palestinians have been killed, over half of Gaza is starving, and 90% of Gazans do not have one meal each day. We are paying for these war crimes through our federal tax dollars instead of what our community needs. Redwood City must pass the community's proposed ceasefire resolution to demand an end to these human rights abuses. Similar resolutions have been passed in San Francisco, Richmond, and Oakland.

A local call for peace from the Council will bring together Redwood City residents of all faiths, and ensure the President and Representative Kevin Mullin listen to us. Over 2/3 of Americans support an immediate permanent ceasefire. Redwood City cannot remain silent on this issue, especially as many of our families and loved ones are being killed or forced to suffer in Palestine.

Sincerely,

Please do not put a call for a ceasefire in Gaza on the Redwood City agenda. International conflicts are not what your constituents elected you to focus on. Doing so will only encourage division and antisemitism and I want to remain feeling happy and safe as I shop, dine, worship, and enjoy my time in Redwood City. For years now, civil discourse in our country has been eroding. We want our town to be a place where people maintain dignity for all, even those with whom we disagree. Your work as leaders of RWC should be to encourage a spirit and culture of dialogue, respect, common ground, and openness to others' viewpoints. Please do not waste city time and resources on matters that are unenforceable and out of its purview. You will only open the door to countless other measures and resolutions that have no place in a city council meeting. Furthermore, understanding complex international, cultural, political, and historical conflicts demands sophistication in curating primary source material, scholarly research, and respected professional journalism. Anything less than that opens the doors to propaganda, hatred, and lies.

Redwood City Public Comment ,

Hello, Vice Mayor Lisette Espinoza-Garnica and City Council members,  
My name is Anaid Atasuntseva; I am a Redwood City resident, Clinical Psychologist at Stanford, and Clinical advisor and Mental Health therapist to Telehelp Ukraine, A nonprofit that provides support via telemedicine to Ukrainians in Ukraine who have been affected by the war. I have seen firsthand the impact that war has on individuals, particularly children, and it is a horror that I would wish on no one. I have heard too many mothers in Ukraine cry, having stood over the lifeless bodies of their children, or lament over the futures they had so carefully planned for them. For those that have remained alive, I have seen the irreparable damage that war has on the psyche, the long-term trauma, anxiety, and often self-harm, suicidality, and other disorders that arise. There are no winners in war. However, what shocks and dismays me daily is the sheer number of deaths and horrors occurring in Gaza. 545 children have been killed in the war in Ukraine, and comparatively, over 12K children have been murdered in Gaza. NO situation would warrant this kind of violence. There is no justification for the destruction of an entire generation. I hope that the Redwood City Council will support a call for peace. I know being so far away, it may not feel that there is anything we can do, but you can act now. Rather than silence, your voice can influence our national representatives in a way our voices can not.

Please act now. There is no care, no treatment, no solution that can be offered to support children without a permanent ceasefire.

Sincerely,

Dr. Atasuntseva

Redwood City Public Comment ,

My name is Aisha Wahab, I live in District 2 and I not only vote every year but have worked as an election worker and volunteer for the past 3 elections. As both someone who works and resides in Redwood City and who's family is part-Palestinian, I am urging the Redwood City Council to join the growing number of cities that have passed ceasefire resolutions including San Francisco, Richmond, and Oakland. My friends and family have been displaced, their land stolen from them, been injured, killed or are now starving due to Israel's policies over the last 75 years and because of the current genocide they are conducting. This is a local issue because as a RWC resident, over \$1M in mine and other RWC tax payer dollars goes to Israel every year! Additionally, I have felt much less safe in RWC working and residing here because of my religion and background. Passing a resolution would show that the city values the lives of Palestinians, Arabs, and Muslims, that we are not subhuman and should not be allowed to be killed indiscriminately or for our children to starve to death. It would make me and many other RWC city residents, feel safe knowing that our city does not believe we have a right to die because we are Palestinian or Arab or Muslim. I want to feel safe in this city again. Never in history has war brought together a community. Peace brings a community together, not war. Be on the right side of history, please support peace, please support a ceasefire resolution.

Sincerely,  
Aisha Wahab

Redwood City Public Comment ,

Dear Redwood City Council,

I do not live in Redwood City, but I have many friends from the area. I'm a Palestinian American, and there are many Palestinians living in your city. We have all been traumatized beyond repair after the last five months of witnessing our people, our friends, and our family be mass murdered after day after day. A cease-fire resolution, as far overdue, and at this point is really the bare minimum. Many cities have already passed cease-fire resolutions. San Mateo county is full of Palestinian Americans, who are desperate to feel seen and humanized by decision-making bodies and government institutions. do not listen to the lies that the cease-fire resolution will be divisive. Genocide is divisive. War is divisive. But we should all be united and wanting to end it.

Redwood City Public Comment ,

Hello Council Members,

I am a longtime resident of Redwood City. I am a pediatric physician and mother of four children. I implore you to uphold a ceasefire resolution. The atrocities in Palestine must be stopped. Over 30,000 Palestinians have been killed, over half of Gaza is starving, and 90% of Gazans do not have one meal each day. We are paying for these war crimes through our federal tax dollars instead of what our community needs. Redwood City must pass the community's proposed ceasefire resolution to demand an end to these human rights abuses. Similar resolutions have been passed in San Francisco, Richmond, and Oakland.

A local call for peace from the Council will bring together Redwood City residents of all faiths, and ensure the President and Representative Kevin Mullin listen to us. Over 2/3 of Americans support an immediate permanent ceasefire. Redwood City cannot remain silent on this issue. It is not a complicated issue to stand up for human rights. It is not complicated to demand an end to war crimes being committed against children, using our tax dollars. Please give your constituents a voice and stand behind a bilateral ceasefire and end to violence

Sincerely,

Naureen Mirza-George, MD

My name is Arielle and I am a RWC resident, a mom of two little boys, 11 months and 2.5 years. I've lived in RWC since I was 5 years old and my husband and I have been homeowners since 2020. My parents are still residents of RWC after 35 years. In fact my roots here go even deeper as my great grandparents lived in Menlo Park when they came here as Jewish refugees from Russia during the pogroms, via Galveston, TX (Ellis island had been closed to Jews because JP Morgan decided he didn't want anymore in NYC). I'm sharing this with you so that you understand how important this city is to us as it represents not just a home but a refuge from persecution. I ask that you take the appropriate action and vote against any resolution for a ceasefire. Never in all of my years or family history have we faced such intense hatred in the Bay Area and to live in a city that I know passes a resolution that signals to others that hatred towards my family is ok, is something I can hardly bare as a mother and a lifetime citizen. In fact my children are half Israeli and this resolution is a personal attack on my Identity and risks my children's safety. I do not want to have to be scared for them to speak Hebrew simply because people don't have an education of the Middle East and have been taught propaganda instead of truth. The ceasefire narrative is rooted in falsehoods and lies and promotes more ignorance and hate. I believe it is the right of every person in RWC to feel safe and this resolution ensures the opposite. Please protect us and our children by not allowing this resolution to go any further. Thank you.

Arielle Levi, PhD

Hamas is not accepting any proposal from Israel for ceasefire and not ready to submit a current list of hostages for an exchange .

So they are not holding only Israeli hostages in horrible , inhumane conditions-they are holding the whole population of Gaza as a hostages .

Israel put a serious proposal on the table and Hamas just showed they don't want to achieve a deal .

There is not much room to compromise in this situation .

Thanks ,

Ella

Redwood City Public Comment ,

The atrocities in Palestine must be stopped. Over 30,000 Palestinians have been killed, over half of Gaza is starving, and 90% of Gazans do not have one meal each day. We are paying for these war crimes through our federal tax dollars instead of what our community needs. Redwood City must pass the community's proposed ceasefire resolution to demand an end to these human rights abuses. Similar resolutions have been passed in San Francisco, Richmond, and Oakland.

A local call for peace from the Council will bring together Redwood City residents of all faiths, and ensure the President and Representative Kevin Mullin listen to us. Over 2/3 of Americans support an immediate permanent ceasefire. Redwood City cannot remain silent on this issue, especially as many of our families and loved ones are being killed or forced to suffer in Palestine.

Sincerely,

Shaella Shagufta

I am the proud mother of sequoia High School alumni. Tonight, we must stand UNITED to prevent our city council from being manipulated by those who sympathize with foreign terrorists like Hamas and who seek to undermine the well-being of our cities and local community. These individuals aim to infiltrate, intimidate, and hijack our democracy's core values, inciting division among our citizens and fostering hatred against Jewish people.

These people support Hamas terrorists who committed the worst massacre of Jews since the Holocaust: Burning, killing, raping, kidnapping innocent families. They support Hamas who have rejected multiple ceasefire proposals: why? So that their leaders can continue to steal millions of dollars of international aid from the people in Gaza to enjoy a luxury life in Qatar, use their population as martyrs to pursue their genocidal goals: eradicate all Jews and no peace agreement since contrary to the global Jihad.

We urge you to reject any foreign policy distractions that divide, incite hatred among residents and keep the focus on local matters critical to our community's well-being.

Thank you.

Isabel Marcus

Personally, I am very much against Redwood City adopting a ceasefire resolution. To me, it is hateful of Jewish people here locally, and supportive of Hamas, a terrorist organization designated by the U.S. government as such. The City should not adopt such a resolution for many reasons. To me, the so-called "Palestinian" flag is a symbol of hate and murder.

Among them: it is hateful in that it is against the right of the only Jewish state in the world to defend itself from terrorists who have it in their charter to destroy Israel and kill all Jewish people everywhere, who committed horrendous butchery, torture, rape, murder, and burning alive of babies, children, women, and men, who have sworn to and continue to daily attack Israel, a tiny country, among many huge and wealthy Arab countries.

It is un-American, unethical, and against human decency to support, in any way the murderous objectives of Hamas and the Jihadists, who are not only anti-Israel, openly teach that all Jews should be murdered, but are also against the United States, against individual freedoms, against freedom of religion, and against Christian values. Hamas is the government of the Gaza Palestinians, the overwhelming majority of whom support Hamas and advocate for the destruction of Israel and the murder of all Jews everywhere.

Thank you!

Please vote against agendizing this factually incorrect ceasefire resolution.

Ceasefire resolutions sow hatred, divisiveness and increase antisemitism. All foreign policy based resolutions focused on Israel are a cudgel seeking to delegitimize the state of Israel, the lone democracy in the Middle East and a US ally. You'll notice there's no uproar against, for example, the horrific enslavement of black Christians in Africa or the Iranian women murdered by the Islamist regime. City councils are being viewed as useful idiots. Please don't be used.

I recommend that the city council consider a motion to abolish all future foreign policy based resolutions. Follow the model of San Jose for decades and Gilroy recently.

Let's keep Redwood City safe and allow you all to focus on pressing issues relevant for local constituents.

Now some facts: Hamas is a US-designated terrorist organization. Over 100 hostages are still trapped in Hamas' UN-funded terror tunnel network, while Hamas cowardly hides behind its civilians as human shields and commits war crimes daily.

Lastly, antizionism is antisemitism. The lies being told today are hurtful and divisive. "Intifada revolution" and "from the river to the sea..." are both calls for the genocide of Jews in Israel. We know what you mean when you chant them. Nazi collaborator and escaped war criminal Amin Al-Husseini told us in the 1950s when he helped Arafat and Abbas pave the way for the PLO. Do you know history?

Thank you.

Redwood City Public Comment ,

I write to you as a constituent and member of the Redwood City community to urge you to adopt the resolution in favor of a permanent ceasefire in Gaza. Over 30,000 Palestinians have been killed, over half of Gaza is starving, and 90% of Gazans do not have one meal each day. We are paying for these war crimes through our federal tax dollars instead of spending that money on the very real needs of our community. Worse yet, our silence becomes complicity in this ongoing massacre which has forced Palestinian families I know to relocate here to escape the bloodshed - we owe it to our new neighbors to help end the assault on their families members back home. Redwood City must pass its agendized ceasefire resolution on March 11 to demand an end to these human rights abuses, just like the cities of San Francisco, Richmond, and Oakland.

A local call for peace from the Council will bring together Redwood City residents of all faiths, and ensure the President and Representative Kevin Mullin listen to us. Over 2/3 of Americans support an immediate permanent ceasefire. Redwood City cannot remain silent on this issue.

Redwood City Public Comment ,

I am active within the Religious Society of Friends (Quakers), which speaks to my personal commitment to peace. The ongoing attack on civilians in Gaza is horrifying and dismaying—the fact our government materially supports is even worse.

I support the work of Quakers (via FCNL and other orgs) to push for a permanent and lasting ceasefire.

While local resolutions are not directly impactful or meaningful, they deliver a powerful message, and I strongly support Redwood City passing this.

I am myself a former Redwood City resident (I lived for half a decade on 5th and Rolison after leaving grad school), and am in RWC constantly (it's still my post office).

Redwood City Public Comment ,

More than 30,000 people have been killed in Gaza, over 12,000 of whom are children—that's 1 in every 75 people in Gaza. Every hour in Gaza: 15 people are killed (six are children), 35 people are injured, 42 bombs are dropped (based on the first six days of the war, according to the Israeli army), and 12 buildings are destroyed.

These devastating atrocities are happening Every. Single. Day.

Public opinion indicates extreme outrage at what's been happening overseas, largely being funded with our tax dollars. A lot of us can't shake this feeling of powerlessness in the face of this ongoing humanitarian crisis. Everyone is trying to do everything in their power to help the truly helpless and suffering.

The atrocities in Palestine must be stopped. Over 30,000 Palestinians have been killed, over half of Gaza is starving, and 90% of Gazans do not have one meal each day. We are paying for these war crimes through our federal tax dollars instead of what our community needs. Redwood City must pass the community's proposed ceasefire resolution to demand an end to these human rights abuses. Similar resolutions have been passed in San Francisco, Richmond, and Oakland.

Redwood City Public Comment ,

Dear Redwood-City Council Members,

My name is Xen Lapshin. I have been a student at Cañada college for almost four years and am deeply involved with the community, not only as a student but also as a Cañada Cultural Center employee. Many of my friends have lived in Redwood City their whole life.

I urge you to support a ceasefire on the local level. It is estimated that 2/3ds of Americans support a ceasefire, yet the Federal government turns a blind eye. In the face of this hypocrisy, we turn to our local representatives to right this wrong. According to US Campaign for Palestinian Rights, Redwood-City residents collectively pay over a million dollars via taxes towards the genocide of Palestinian people. That is taxation without representation. Imagine if the money was instead used to serve the city. Beyond that, and most importantly, the Palestinian members of our community have been experiencing alienation and violence from other community members, and from the general political climate that our nation-state creates surrounding the conflict. Many are also experiencing family loss and grief, which ultimately impacts everyone in our community.

Please don't remain complacent in the face of this injustice and represent our collective voice.

Sincerely,  
Xen.

Redwood City Public Comment ,

Dear Mayor and Councilmembers,

I am a ten-year resident of the Bay Area. Redwood City is my family's favorite place to go to watch movies, have dinner, grab a coffee, or to visit my kids' favorite park, Magical Bridge playground. In 4 months, over 30,000 Palestinians have been killed, and over half of Gaza is starving due to Israel's assault on the most densely populated area in the world. Your Palestinian and Arab constituents, myself included, have watched our people being slaughtered on our phones, and our ancestral homelands destroyed. The Biden administration, with the backing of most of Congress including Kevin Mullin, has not only allowed this to happen, it's supplying the means and weapons for this to take place. I join the majority of Americans to call for an immediate permanent ceasefire in Gaza, and hope you will pass a resolution to call for one as well. Not only will you be joining fellow Bay Area cities like Richmond and San Francisco, but you have an opportunity to lend a voice in solidarity, and stand on the right side of history. There is no military solution to this conflict. Anyone with common sense and a conscience can see that. Thank you for your time.

Sincerely,  
Nadine Makki

Dear Mayor, Vice Mayor, and Council Members,

I am writing as a Redwood City Israeli and Jewish resident asking you to **not** put a call for a ceasefire in Gaza on the Redwood City agenda.

I am horrified by what is happening and every day I hope and pray for an end to the war. My second cousin Liri Albag was kidnapped and is still held hostage. She turned 19 in Hamas captivity and I think about her every day. On February 14, Hezbollah rockets hit the entrance of Ziv Hospital in the northern Israeli city of Safed, blocks away from where my husband's family lives. I watched a video of rocket remains falling on the bus stop where I've stood at the hospital's entrance.

Discussions of ceasefire resolutions in other Bay Area cities empowered the most extreme voices including open antisemitism. The one-sided resolutions haven't mentioned Jews or Israelis, and the message is that our lives- mine and my family's- don't matter to local Boards and municipalities. I have lived in Redwood City since 2018, and after the overwhelming antisemitism from all directions I am not sure how much longer I should stay.

A ceasefire resolution from Redwood City will be unenforceable, will have no impact on the war itself, and won't help anyone suffering in this war. It can't address the full complexity of the situation and it will just hurt us right here. The role of Redwood City's leadership is to address local community needs, and resolutions addressing foreign affairs are outside its scope and jurisdiction. The time and resources spent discussing this should be focused on issues the City Council can act on to directly benefit all Redwood City residents.

Thank you for reading this.

-Sarit

Redwood City Public Comment ,

To whom it may concern,

I am disgusted by how you have treated the Israel Palestine war for the past several months. Although I do not have connections to Palestine heritage-wise, this is no longer a matter of defending heritage. It is a matter of basic human rights, that everyone across the entire world should be entitled to.

My name is Nicholas Hopper and I am a Redwood City resident, part of San Mateo County, and am a registered voter. I am currently attending Cañada College and work there as a Spanish Tutor. I have a deep interest in language and hope to get a Master's Degree in Linguistics one day. As such, I care a lot more about foreign affairs than most Americans. There are tens of thousands of innocent lives that have been lost due to a conflict that they had no part in, over a third of which are the children who represent the world's future: now approximately 13,000 of them have left this world for reasons that did not concern them whatsoever.

War is hell, a hell that nobody anywhere in the world should have to go through. In every single world conflict, hundreds of thousands of innocent civilians have been killed, and this war is no exception. I attended a Vigil for Palestine last Wednesday March 6th, and learned from a representative of the Bay Area's Jewish community that the single most important command in Judaism is the preservation of human life: it overrides all other commandments in importance. The fact that the Israeli government is committing the very same atrocities that were committed against the Jewish people in the 1940's during World War II, and think they are at all justified for massacring thousands of innocent people fills me with a deep, resounding anger at such an abominable violation of human rights.

Children who have not even left elementary school, who probably know nothing about the United States, are being killed with our tax dollars; money that was supposed to pay for the betterment of society. In what world is massacring children, those who will one day succeed us, good for the betterment of society?

Kevin Mullin has the blood of thousands of children on his hands. I am disgusted that we allowed this man into a public institution as powerful as the legislative branch. It appears that no matter what we the people, the ones whom are supposed to elect those who represent our own thoughts and feelings, do, our words fall on deaf ears.

Please, for the sake of humanity, for everyone, regardless of race, ethnicity or identity, vote for a ceasefire. These atrocities have to stop now.

Sincerely,

-Nicholas Alexander Hopper

To whom it might concern,

I would like to express my thoughts against adding a cease-fire resolution to the agenda of the next meeting. This can detract from local concerns and increase strife in the community. This is a painful issue and I'm not sure this is the best forum to resolve it in.

Best,

Bay area resident

Redwood City Public Comment ,

Hello, my name is Kyla Valenti and I'm a resident of Redwood City, District 2. I've lived and worked in the city for several years, most recently at the County of San Mateo Human Services Agency. I'm an AFSCME member and attend services at Insight Meditation Center.

I'm writing to urge you to pass our community's ceasefire resolution.

The genocide in Palestine must end immediately. Over 30,000 Palestinians have been killed and millions more are displaced and suffering from starvation, lack of sanitation, water, medical care and telecommunications. We are paying for this devastation through our federal tax dollars instead of what our communities need.

Redwood City has a \$9.2 million annual deficit. Of the \$4 billion the federal government gives to the Israeli military, \$1.1 million comes from Redwood City residents. Meanwhile, Biden wants to give Israel an additional \$14 billion, taking several million dollars directly from our tax dollars. By calling for a ceasefire, we can close our deficit, fund our community, and stand together against bloated U.S. military spending.

A call for peace from the City Council will bring together Redwood City residents of all backgrounds and faiths for a more vibrant democracy, and ensure the President and Representative Kevin Mullin listen to us on this issue. More than 2/3rds of Americans support an immediate permanent ceasefire. Redwood City cannot remain silent any longer.

Sincerely,

Kyla Valenti

Redwood City Public Comment ,

Hello,

My name is Marisol and I'm a Mexican-American California native who's made the Bay Area her home for the last seven years, including four years working and serving Peninsula communities as an educator and non-profit worker in East Palo Alto. I currently live in San Francisco, the largest city to pass a ceasefire resolution to date.

I'm writing this letter to testify that this resolution has not led to any rise in tension amongst our citizens, or crime in our streets. On the contrary, I feel proud that my city has recognized the need to take a stance for justice and humanity. It's a step closer to peace, and more importantly it's a signal to our diverse communities that we stand together, and oppose hate and violence. In addition, over 2/3 of Americans support an immediate and permanent ceasefire. Islamophobia, antisemitism, and anti-Palestinian racism are rising at an alarming rate, and we need to see tangible action from our city leaders.

I implore you to listen to your constituents, echo their calls to the President and Congress, and pass a ceasefire resolution immediately.

Sincerely,

Marisol

Redwood City Public Comment ,

The atrocities in Palestine must be stopped. Nearly 160 days have passed since the events of October 7th; over 30,000 Palestinians have been killed, including over 13,000 children, over half of Gaza is starving, and 90% of Gazans do not have a single meal each day. A permanent ceasefire is the only way to stop the abuse faced by Gazans.

My name is Miguel Mancilla and I have lived in Redwood City for nearly 20 years, and as a Latino in Redwood City, I can say with certainty that many in our community have been affected directly and indirectly by Israel's long history in Latin America. My parents fled their home country to escape violence and find safety, I see their struggles reflected in the Palestinian's struggle. Over 1.4 million Palestinians have been displaced, similarly, hundreds of thousands of Latin Americans have been displaced and forced to seek asylum as a result of Israel's long and continued history of enabling violence which contributes to human rights violations in Latin American countries.

Israel enabled much of the violence in countries like El Salvador, Nicaragua, and Guatemala by providing military training, aid, and imports. In El Salvador from 1975-1979, Israel supplied 83% of military imports, much of which was used by extremist groups escalating armed conflict in the region. In Nicaraguan Israel supported the Somoza dictatorship, even continuing to aid the oppressive dictatorship after the U.S. pulled out in 1976. In Guatemala, Israel played a part in the Guatemalan genocide which happened less than 30 years ago. The U.S. also played a part in supporting the genocide, President Clinton apologized for the U.S.'s involvement and support in 1999 but Israel has made no similar statements. Violence in these three countries continues to go on. The flames of war which Israel has fanned to a blaze have yet to settle resulting in waves of displacement that ripple throughout Latin America.

There are many similarities between Israel's treatment of Palestinians and the treatment of indigenous Guatemalans during the genocide. The struggles of Palestinians are deeply connected to ours. Displacement and violence are experiences many of the residents in our city can tie their personal and family histories to. No one desires or deserves to be displaced, but violence and economic hardships caused by histories of violence, like those enabled by Israel, lead to displacement.

The atrocities being committed by Israel are being funded by our tax dollars, we are paying for these war crimes instead of funding our community and addressing its needs. Redwood City must pass the community's proposed ceasefire resolution to demand an end to these human rights abuses. Similar resolutions have been passed in San Francisco, Richmond, and

Oakland.

A local call for peace from the Council will bring together Redwood City residents of all faiths, and ensure the President and Representative Kevin Mullin listen to us. Over 2/3 of Americans support an immediate permanent ceasefire. Redwood City cannot remain silent on this issue, especially as many of our families and loved ones are being killed or forced to suffer in Palestine.

Sincerely,  
Miguel Mancilla

Hello City Council members.

I have lived in San Mateo County for 35 years and I have never seen this level of blatant antisemitism in my lifetime. I escaped a country where Jews were treated like second-class citizens and to see this hate and racism in the Bay Area breaks my heart.

Please vote against this ceasefire resolution.

On March 9th, Julie Marzouk wrote, "City councils are being used as pawns for organizations who intend to spread anti-Jewish and anti-Israel propaganda. The intent is to introduce "ceasefire" resolutions into local government bodies where such actions may have no legislative authority, but do have maximum public relations effect.

The "ceasefire resolutions" further distort the narrative being painted against Israel and aim to legitimize efforts to boycott, divest, and sanction Israel. As the ceasefire manuals make clear, the next stop on their "tour" is local school boards with the aim of influencing curriculum.

When local governments give sanction to and embolden antisemitic rhetoric from the authority of their chambers, society as a whole should be alarmed. Centuries of restrictive dictates against Jews, exiles, pogroms, and the Holocaust all began with the legitimization of Jew hatred by local governments. We should all pray for peace in the Middle East. However, even when there is indeed a ceasefire between Israel and Hamas, these city council "activists" are not going away; because the true aim was never the ceasefire. It is the destruction of Israel."

Dear City Council Members,

On October 7th, the terrorist group Hamas initiated a surprise attack and invaded the state of Israel on a Jewish holiday, violating the ceasefire that was in place. They murdered civilians, families, children, and infants in their homes and in their beds. They raped, they tortured and they destroyed. They kidnapped innocent seniors, families, women, and children.

Even before Israel sent forces into Gaza, people around the world took to the streets to celebrate the torture and murder of Jews, labeling these atrocities as acts of "resistance." As Jews, my family has been living in a constant state of fear ever since. Across the country, Jewish businesses, organizations, and places of worship have been targeted and attacked, even in our local Bay Area community. We're seeing increased acts of antisemitism nationwide and calls to violence including today, posters plastered in New York City, advocating that "Rape is Resistance" and "Babies are Occupiers Too - Free Palestine by Any Means Necessary". These acts do nothing to help the people in Gaza. Rather, they are blatant targeting of Jews and morally repugnant.

Across the Bay Area, we've seen these acts of antisemitism exacerbated when local city councils go outside of their remits of local politics and take up ceasefire resolutions. These resolutions have no bearing on foreign policy and instead fuel the fire of antisemitic hatred. This antisemitism is already on full display in Redwood City, and will only get worse should the City Council continue to pursue a ceasefire resolution. I ask that this council not agendize a resolution for a one-sided ceasefire that will further inflame hatred and division, and that will endanger and isolate the Jews in our community.

Respectfully,

Mark Klebanov - American Jewish Committee Bay Area Board Member and Resident of Redwood City

Hello,

I respectfully ask the city council to vote NO on the ceasefire resolution. As a resident of San Mateo County for 26 years, I have experienced antisemitism in high school, college, and had my home vandalized (Mezuzah and Hamsa stolen off my door). I have never seen antisemitism grow to the levels it has in the past 5 months.

This ceasefire resolution will only fan the flames of hate against Israel and Jews around the world.

Hamas has broken every single ceasefire that has been put in place for the past 18 years. They broke the ceasefire on October 7th which started this war, they broke the ceasefire on December 1st, and they will keep breaking future ones.

On October 24th, a senior member of Hamas, Ghazi Hamad said, "We must teach Israel a lesson, and we will do it twice and three times. The Al-Aqsa Deluge [the name Hamas gave its October 7 onslaught] is just the first time, and there will be a second, a third, a fourth. Will we have to pay a price? Yes, and we are ready to pay it. We are called a nation of martyrs, and we are proud to sacrifice martyrs."

Hamas can end this war today by releasing the 134 hostages and surrendering.

Please help keep the Redwood City community safe by voting NO on this resolution.

Thank you,  
Mary Worthey

**[Please Note!]** Many scammers will use a gmail.com address to send fake invoices/bills/direct deposit changes. Please be cautious and check with IT if you have any concerns

Hi there,

Can you please read my comment regarding this agenda item (just made the 5 pm cutoff, phew):

A City Council Referral: Future consideration of a resolution calling for a permanent bilateral ceasefire in Palestine and Israel CMO

I know it's long (took me 5 minutes to read), and this is after I cut it back by about 50%, but I think all the parts are important to share, especially given the consequences of such a resolution being adopted. If it is cut back, please send back to me what was read. Thank you so much!!

**I am urgently responding to the requested resolution demanding a cease-fire in Gaza, and asserting that the war has been genocide against the Palestinian people by Israel.**

**First, I'd argue the City of Redwood City should be attending to the issues afflicting the City of Redwood City, such as homelessness, education, affordable housing, crime, discrimination, and safety. I am deeply concerned about Redwood City adopting a political stance in a complicated foreign situation, and its implications in doing so. How many resolutions have been adopted by the City of Redwood City about the violence in Ethiopia, Myanmar, Ukraine, and Yemen, or atrocities committed in countless other areas around our globe? Is the City Council fully educated and authorized to make a political statement about this foreign war, and in doing so, what does that say about its absence in statements about all the other crises and conflicts endured worldwide at this very moment? I would argue that this is neither the role or authority of this city, who should be focusing its resources on our lovely town.**

**Now, if this resolution continues consideration, there is an alarming absence of context in its statement. Where does this resolution address the origin of this war, which was created aggressively by Gaza, in its trespassing Israel's sovereign borders for the inhumane and despicable torture and murder of over one thousand citizens, kidnapping of over 200 hostages, and its gleeful celebration of its progress towards its mission of annihilation of Israel. Hamas, the government of Gaza, has**

**promised that this is just the first chapter, and there will be many more. Combine this fact of Gaza's offense with its consistent launch of missiles into Israel for nearly 20 years, for which Israel did not retaliate with war against Gaza, which would have been justified, but rather responded by creating a sophisticated iron dome system to mostly ward off missiles from reaching their Israeli targets. Despite nearly 20 years of these acts of war and aggression that Israel has suffered, Israel has continually chosen peace, and tolerated what other countries, including our own, would never accept. Can you imagine our response if Mexico launched missiles into our country for a day, let alone twenty years, without immediate and all-out war? You can further this argument by imagining our response had October 7th occurred within our sovereign borders.**

**Now, only after October 7, has Israel finally retaliated, to ensure these atrocities could never be repeated, and necessitating the destruction of Hamas.**

**The resulting war has been devastating both to Gaza and our collective humanity, with any innocent child or civilian casualty being one too many, but please never forget who is accountable for this war. Gaza began this war with its 20 years of aggression, and its horrific October 7th attack. Gaza brought to power its governing Hamas, who committed war crimes by building its military infrastructure beneath its women and children, and further, now having its soldiers wear plain clothes instead of uniforms to blend in as civilians, making the actual civilian toll impossible to know. Rather than investing in its people, Hamas used its funding from the UN, Iran, and many charitable organizations for its military and terrorism infrastructure, buried deep beneath its homes, schools, and hospitals. And yet, while this war has waged, with Israel absolutely defending its borders with the legitimate fight against its aggressor, the resulting Palestinian death toll has been repackaged as a 'genocide' against Palestinians instead of Israel's legal defense of its country.**

**Shockingly, Hamas, as of December 2023, per the Associated Press, enjoys a 90% approval rating among Palestinians in both Gaza and the West Bank. As long as terrorism, anti-semitism, and hate is more important than Palestinian lives, how can peace or a two state solution ever truly be achieved?**

**Last, where is Egypt mentioned in this resolution? Egypt has inexcusably refused to permit Palestinian civilian refugees to cross its borders, which has absolutely contributed largely to this disaster and tragedy, leaving Palestinian civilians nowhere to go. All fingers have meanwhile pointed at Israel, without fairly acknowledging its many efforts to prevent human lives lost. Please look up John Spencer, chair of urban warfare studies at the Modern War Institute at West Point and a retired US military officer, who argues that Israel has done more to prevent civilian casualties in**

**Gaza than any other known army in the world. He delves into many techniques they have employed to minimize casualties.**

**This war has bled unfairly into a propaganda campaign alleging Palestinian genocide, along with a renewed 'Free Palestine' movement. Do not mistake that any ceasefire will be only to Hamas' benefit, permitting them to reinforce and strengthen for their future offensive and destructive efforts against Israel. We are nearly on the other side of this planet, with any city council resolutions frankly not having any true impact on Gaza or Israel, but rather fueling the antisemitism spiking at a frightening rate within our community. Any arguments for genocide against Palestinians ignore the true facts of this war and its perpetrators, and misplaces Israel as the aggressor, leading to Anti-Zionism. Hamas designed this war, with its offensive that isn't even noted in this resolution, its war machine and soldiers operating with its children as pawns and human shields, as an excellent propaganda machine to weaken Israel and further Jewish hate around the world, and if we adopt this resolution, we are effectively embracing and supporting Anti-Zionism and Antisemitism.**

Redwood City Public Comment ,

I am writing to express my support to all the people of residents of Redwood City and to demand that a Gaza ceasefire resolution be passed by the Redwood City council. I am a resident of San Mateo county, district 2 arts commissioner and an educator and I stand in solidarity for the people of Palestine.

atrocities in Palestine must be stopped. Over 30,000 Palestinians have been killed, over half of Gaza is starving, and 90% of Gazans do not have one meal each day. We are paying for these war crimes through our federal tax dollars instead of what our community needs. Redwood City must pass the community's proposed ceasefire resolution to demand an end to these human rights abuses. Similar resolutions have been passed in San Francisco, Richmond, and Oakland and many other cities across the US.

At the heart of this issue is human rights. No war where children are targeted and starved is a just war and we must stand as a community against such blatant acts of human rights violations. Please support this resolution, history is watching us!

Redwood City Public Comment ,

I write to you as a 15-year resident of Redwood City and a Jewish-American. The level of devastation to the civilians of Gaza is horrifying as was the murder of Israelis on October 7. A ceasefire is essential to stop the killing, terror, and starvation of the residents of Gaza and to get the rest of the Israeli hostages returned to their families. You might wonder what does this international crisis have to do with the concerns of the City of Redwood City. I am reminded of the atrocities committed against civilians and the senseless loss of American soldiers during the Vietnam War. Like then, the government would not listen to reason and humanity so we Americans took to the streets. It was the only way to get our government to listen. Holding back the \$3.3 billion we give to Israel will force Netanyahu to listen to President Biden's and Secretary of State Blinken's call for a ceasefire. Thank you for listening. Redwood City Public Comment ,

Hello, my name is Mira Lotfy and I am a long time Redwood City resident in District 1. I would like to strongly urge city council to approve a ceasefire resolution as soon as possible. The images coming out of Gaza are horrendous and incomprehensible. They are enough to bring any human with an heart to their knees. Over 30,000 human beings are dead with thousands more under the rubble. Peace absolutely cannot be achieved by violence, death and complete destruction, especially of innocent children and civilians. Over 2/3 of Americans support a ceasefire... Where we see wrong or inequality or injustice we need to take a stance. This needs to start in our own community. Please stand on the right side of history and choose humanity.

Sincerely,  
Mira Lotfy

Dear Mayor Gee and City Council members,

My name is Alyse and I live in the area and have kids in the Redwood City School District. I implore this council to use its valuable time to focus on local issues, and not to waste its energy with battles about foreign policy. The Israeli-Palestinian conflict is complex and nuanced, far too complicated to capture in one proposed resolution or during a council session. The issue is also extremely divisive. Just yesterday, three strangers yelled at my family in the courthouse square when we revealed our stance on this issue.

If we consider this resolution, shouldn't we also consider a resolution to ask Egypt to open its border to Palestinian refugees? Perhaps another resolution to ask the same of Jordan, and to voice our opinion on the Lebanon-Israel conflict that is brewing. What about Sudan and the Congo, which are in the midst of terrible wars and human suffering? If we wade into foreign policy here, fairness dictates we would need to consider resolutions on every global war and conflict.

Please vote no.

Redwood City Public Comment ,

Dear Council,

I have been a proud Redwood City resident for the past 8 years. Broadway street and local businesses are the first stop when I tour visitors around the Bay Area.

I am writing to demand that Redwood City council calls for an immediate and permanent ceasefire in Gaza. The sad truth is, even if you don't call for it now, you will have to in a matter of weeks and months when the genocide and human toll becomes unavoidable. So please, albeit late, get on the right side of history.

Many times we talk about being on the right side of history. But it's always in hindsight.

We forget that...

- There were people on the wrong side of history of Women's Suffrage
- There were people on the wrong side of history of Abolition of Slavery
- There were people on the wrong side of history of the Holocaust
- There were people on the wrong side of history of the Iraq War

And Now...there ARE people on the wrong side of history of the ongoing Genocide in Gaza.

I DO NOT want my city to look back 20 years from now and regret not standing up for humanity, justice, and peace.

Hello,

I am a D5 resident and raising this matter with you now for a third time.

I implore the Redwood City council to call for an immediate and lasting ceasefire by voting in support of the Ceasefire resolution, put together by concerned members of your community.

As it stands, some 77 members of congress have already called for a Ceasefire. We also know from various recent polls, that about 70% of the US public wants an immediate ceasefire and cessation of hostilities. This is the only way we can begin to discuss a peaceful future for the Palestinians.

Furthermore, it is estimated that some \$1.1m from Redwood City taxpayers goes directly to Israeli Military spending. For our City this could approximately cover public housing for 130 families, free or low cost healthcare for 382 children or 11 additional elementary school teachers.

Some council members have hidden behind the statement that "this is not a local issue" - it absolutely is.

Palestinian members of your city have direct connections to Gaza. Many have lost family members, homes and now face forcible eviction from their lands. As a city that prides itself on being peaceful and anti-hate we have an obligation to reject violence and call for a ceasefire immediately!

You will find the resolution to be fairly worded, impartial and balanced in every regard except for the fact that it stands on the side of peace and humanity. I trust that each council member will put their individual humanity first and stand on the side of peace too.

Many Thanks

Mr Ali

Please pass the resolution in favor of an immediate and permanent ceasefire in occupied Palestine.

As you know, 2/3rds of American voters, across all demographics, want Israel's siege of Gaza to end. More than 200 labor unions want a ceasefire, including National Nurses United, the National Education Association, AFL-CIO, SEIU, UAW, UE, and the American Postal Workers Union. But the federal government is literally ignoring us: President Biden has bypassed Congress *three times* to send Israel more weapons, and the United States is the only member of the UN Security Council to keep vetoing a ceasefire resolution. These actions are inherently anti-democratic and need to stop!

We're relying on you, our local officials, to amplify our voices so that Congressman Kevin Mullin and President Biden know that we want a ceasefire now. Thank you.

Allison Chang

You don't often get email from shaynasmilovitz@gmail.com. [Learn why this is important](#)

My name is Shayna Smilovitz, I am 39 years old and I am a proud Redwood City resident - born and raised here and I lived here most of my adult life. My great-grandfather Uke Popik was one of the founders of Temple Beth Jacob, the only large Jewish synagogue in Redwood City. I was always one of the only Jewish people in the room, living on the Peninsula, and I was proud to represent Jews and Judaism. I worked as a social worker in the Bay Area from 2010 to 2014, I advocated for people in the community and felt strongly about social justice.

In 2014 I moved to Israel and became an Israeli citizen because of my love for the land, my connection to the country and the Jewish people. I was always liberal and always believed in the rights of the Palestinian people to have self-determination and form their own country (I still believe this). I see them as human beings and want them to live in peace, just as I want my fellow Israeli citizens to live in peace.

I lived in Israel, met my husband and gave birth to two children there - both have American and Israeli dual citizenship. My husband was born and raised in Israel and is of Moroccan and Yemeni descent (his family had to leave these Middle Eastern countries because it was not safe for Jews to stay, so Israel is his family's only home, there is no other country they can go).

I was living in Israel on October 7 and experienced the collective trauma that this day caused, for Jews everywhere and especially Israelis. For 5 days we had sirens all day, we had to go into the safe room and explain to our daughter why we were going. We couldn't leave the house at all. After the 5th day we decided to fly out to Athens then to California to stay with my parents until things calmed down, and eventually decided to relocate and stay here. So now we are all Redwood City residents.

As a native Redwood City resident, a Jew, and Israeli and a liberal/progressive person who has fought for oppressed people everywhere, I urge you to NOT support the ceasefire agenda item. First of all, there should be no ceasefire until all the innocent Israeli hostages (especially the majority of which are civilians) are returned home. Secondly, the ceasefire would just empower Hamas, which has no regard for Jewish/Israeli or civilian Palestinian human life. Israel cannot live side by side with this terrorist organization.

Calling for a permanent ceasefire only fans the flame of existing antisemitism around the world and actual violence against Jews that has increased astronomically in the US after the war started. It doesn't make sense for city councils to make international political statements when it has no real effect on the conflict in the Middle East. It only makes Redwood City a more divisive place to live, which saddens me as a proud resident.

Thank you for your time.

Redwood City Public Comment ,

I have lived in Redwood City, in District 4, for almost 20 years. I have lived on the Peninsula almost my entire life. The Bay Area I know does not stand for genocide.

The atrocities in Palestine must be stopped. Over 30,000 Palestinians have been killed, over half of Gaza is starving, and 90% of Gazans do not have one meal each day. We are paying for these war crimes through our federal tax dollars instead of what our community needs. Redwood City must pass the community's proposed ceasefire resolution to demand an end to these human rights abuses. Similar resolutions have been passed in San Francisco, Richmond, and Oakland.

This is not only about apartheid and genocide, but also about our tax dollars. Our city has a projected \$9.2 million annual deficit. Of the \$4 billion the federal government gives to Israel's military, \$1.1 million comes from Redwood City residents every year. Now Biden wants to give an additional \$14 billion, of which several million dollars would come directly from us as taxpayers. We can close the deficit and fund our community needs if we stood against bloated U.S. military spending and called for a ceasefire.

A local call for peace from the Council will bring together Redwood City residents of all faiths, and ensure the President and Representative Kevin Mullin listen to us. Over 2/3 of Americans support an immediate permanent ceasefire. Redwood City cannot remain silent on this issue, especially as many of our families and loved ones are being killed or forced to suffer in Palestine.

Redwood City Public Comment ,

My name is Amber Garza-Washburn. I have been a resident of and small business owner in Redwood City's District 4 for over four years. I LOVE this city - it has inspired me to engage meaningfully in civic activities like the Library Board and county elections. It is in this spirit of civic engagement and responsibility that I implore the Redwood City City Council, and my representative Councilmember Martinez Saballos specifically, to adopt the proposed Ceasefire Resolution.

It is difficult to put into words the grief and horror that the last 157 days have wrought. After a massacre of over 1,300 Israelis, over 30,000 Palestinians have been killed, an estimated 12,000 of them children. The population of Gaza is starving through manufactured famine. Israel perpetuates a litany of war crimes on full display including collective punishment; deliberate targeting of civilian, educational, cultural, and medical sites; forced displacement and others. This is not self-defense. This is extermination and revenge.

Our federal tax dollars are funding these atrocities instead of what our community needs. The aid package to support Israel's siege on Gaza is obscene. Redwood City must pass our community's proposed Ceasefire Resolution to demand an end to these human rights abuses. Similar resolutions have been passed by the city councils of over 70 American cities, including San Francisco, Richmond, and Oakland.

A local call for peace from the Council will demonstrate that Redwood City residents of of all faiths believe in the sanctity of life and humanity of a people under occupation. It will ensure the President and Representative Kevin Mullin hear us. According to several varied polls, the majority of Americans support an immediate permanent ceasefire. Redwood City cannot remain silent on this issue, especially as many of our families and loved ones are being killed or forced to suffer in Palestine. More than that, we have a moral imperative to say "Basta." ENOUGH. No more money, no more support, no more arms, no more killing.

Sincerely,  
Amber Garza-Washburn

To RWC City Counsel,

I am a resident of Redwood City and believe that we should be celebrating the beauty of the city's rich cultural diversity. Please do not let others outside our community influence your decision surrounding the ceasefire resolution. This ceasefire resolution is divisive and goes against the city's mission and vision.

Beyond the fact that local governments should keep things local. It should be noted that it's Hamas that is not accepting the US/Qatar/Egypt current ceasefire proposal that Israel has agreed. Matthew Miller spokesperson for the U.S. State Department noted that "Israel has put a serious proposal on the table that is for Hamas to accept and engage in good faith to show that they want to achieve a deal." Hamas is not only holding Israel's hostage but all the people of Gaza hostage. They don't want a deal and the burden is on them to respond.

Please do not vote for the ceasefire resolution and take a firm stance against foreign actors trying to take our city government hostage. Let's get back to the core of what makes RWC great.

Larry

Redwood City Public Comment ,

I am providing public comment that I would like the city council to pass the ceasefire resolution. This issue matters deeply to me because I have met multiple Peninsula community members who are fearful or grieving their family members and loved ones in Gaza due to Israel's unrelenting military assault. The 2.3 million people in Gaza have been cut off from electricity, food, water, and critical aid, creating a mass famine and morally unconscionable situation. My heart breaks when I think about how we in the US will be able to start and break our fasts in Ramadan today as we please, while millions starve and suffer in Gaza. Please pass the ceasefire resolution immediately in order to stand in solidarity with our Palestinian community members and call for peace in the face of this humanitarian crisis, being funded in part by military aid from our own government.

Sincerely,

Noble Mushtak

***I just saw the email limiting comments to 2 minutes -- here's my attempt at the chop!  
Please read this, that should be under 2 minutes!!***

***This war has been devastating both to Gaza and our collective humanity, with any innocent child or civilian casualty being one too many, but please never forget who is accountable for this war. Gaza began this war with its 20 years of aggression, continually launching missiles into Israel, and its last straw with the horrific October 7th attack that finally triggered Israel's defense and determination to eradicate Hamas. Hamas committed war crimes by building its military infrastructure beneath its women and children, and having its soldiers wear plain clothes instead of uniforms to blend in as civilians, increasing casualties and making the actual civilian toll impossible to know. Rather than investing in its people, Hamas used the vast majority of its funding from the UN, Iran, and many charitable organizations, for its military and terrorism infrastructure, buried deep beneath its homes, schools, and hospitals. Meanwhile, Israel has apparently done more in this war to prevent human lives than any known army in history, according to West Point professor John Spencer. And yet, while this war has waged, the resulting Palestinian death toll has been repackaged as a 'genocide' against Palestinians instead of Israel's legal defense of its country. Further, why is there no mention of Egypt, who has inexplicably and inhumanely refused to open its borders, leaving Palestinians with nowhere to go, and dramatically limiting the ability for humanitarian aid and safe shelter.***

***Do not mistake that any ceasefire will be only to Hamas' benefit, permitting them to reinforce and strengthen for its future offensive and destructive efforts against Israel. We are nearly on the other side of this planet, with any city council resolutions frankly not having any true impact on Gaza or Israel, but rather fueling the antisemitism spiking at a frightening rate within our community. Any arguments for genocide against Palestinians ignore the true facts of this war and its perpetrators, and misplaces Israel as the aggressor, leading to anti-zionism. Hamas designed this war, with its offensive that isn't even noted in this resolution, its war machine and soldiers operating with its children as pawns and human shields, as an excellent propaganda machine to weaken Israel and further Jewish hate around the world, and if we adopt this resolution, we are effectively embracing and supporting anti zionism and antisemitism.***

On Mon, Mar 11, 2024 at 4:27 PM Deborah Vieira <[deborahlvieira@gmail.com](mailto:deborahlvieira@gmail.com)> wrote:  
Hi there,

Can you please read my comment regarding this agenda item (just made the 5 pm cutoff, phew):

A City Council Referral: Future consideration of a resolution calling for a permanent bilateral ceasefire in Palestine and Israel CMO

I know it's long (took me 5 minutes to read), and this is after I cut it back by about 50%, but I think all the parts are important to share, especially given the consequences of such a resolution being adopted. If it is cut back, please send back to me what was read. Thank you so much!!

**I am urgently responding to the requested resolution demanding a cease-fire in Gaza, and asserting that the war has been genocide against the Palestinian people by Israel.**

**First, I'd argue the City of Redwood City should be attending to the issues afflicting the City of Redwood City, such as homelessness, education, affordable housing, crime, discrimination, and safety. I am deeply concerned about Redwood City adopting a political stance in a complicated foreign situation, and its implications in doing so. How many resolutions have been adopted by the City of Redwood City about the violence in Ethiopia, Myanmar, Ukraine, and Yemen, or atrocities committed in countless other areas around our globe? Is the City Council fully educated and authorized to make a political statement about this foreign war, and in doing so, what does that say about its absence in statements about all the other crises and conflicts endured worldwide at this very moment? I would argue that this is neither the role or authority of this city, who should be focusing its resources on our lovely town.**

**Now, if this resolution continues consideration, there is an alarming absence of context in its statement. Where does this resolution address the origin of this war, which was created aggressively by Gaza, in its trespassing Israel's sovereign borders for the inhumane and despicable torture and murder of over one thousand citizens, kidnapping of over 200 hostages, and its gleeful celebration of its progress towards its mission of annihilation of Israel. Hamas, the government of Gaza, has promised that this is just the first chapter, and there will be many more. Combine this fact of Gaza's offense with its consistent launch of missiles into Israel for nearly 20 years, for which Israel did not retaliate with war against Gaza, which would have been justified, but rather responded by creating a sophisticated iron dome system to mostly ward off missiles from reaching their Israeli targets. Despite nearly 20 years of these acts of war and aggression that Israel has suffered, Israel has continually chosen peace, and tolerated what other countries, including our own, would never accept. Can you imagine our response if Mexico launched missiles into our country for a day, let alone twenty years, without immediate and all-out war? You can further this argument by imagining our**

response had October 7th occurred within our sovereign borders.

Now, only after October 7, has Israel finally retaliated, to ensure these atrocities could never be repeated, and necessitating the destruction of Hamas.

The resulting war has been devastating both to Gaza and our collective humanity, with any innocent child or civilian casualty being one too many, but please never forget who is accountable for this war. Gaza began this war with its 20 years of aggression, and its horrific October 7th attack. Gaza brought to power its governing Hamas, who committed war crimes by building its military infrastructure beneath its women and children, and further, now having its soldiers wear plain clothes instead of uniforms to blend in as civilians, making the actual civilian toll impossible to know. Rather than investing in its people, Hamas used its funding from the UN, Iran, and many charitable organizations for its military and terrorism infrastructure, buried deep beneath its homes, schools, and hospitals. And yet, while this war has waged, with Israel absolutely defending its borders with the legitimate fight against its aggressor, the resulting Palestinian death toll has been repackaged as a 'genocide' against Palestinians instead of Israel's legal defense of its country.

Shockingly, Hamas, as of December 2023, per the Associated Press, enjoys a 90% approval rating among Palestinians in both Gaza and the West Bank. As long as terrorism, anti-semitism, and hate is more important than Palestinian lives, how can peace or a two state solution ever truly be achieved?

Last, where is Egypt mentioned in this resolution? Egypt has inexcusably refused to permit Palestinian civilian refugees to cross its borders, which has absolutely contributed largely to this disaster and tragedy, leaving Palestinian civilians nowhere to go. All fingers have meanwhile pointed at Israel, without fairly acknowledging its many efforts to prevent human lives lost. Please look up John Spencer, chair of urban warfare studies at the Modern War Institute at West Point and a retired US military officer, who argues that Israel has done more to prevent civilian casualties in Gaza than any other known army in the world. He delves into many techniques they have employed to minimize casualties.

This war has bled unfairly into a propaganda campaign alleging Palestinian genocide, along with a renewed 'Free Palestine' movement. Do not mistake that any ceasefire will be only to Hamas' benefit, permitting them to reinforce and strengthen for their future offensive and destructive efforts against Israel. We are nearly on the other side of this planet, with any city council resolutions frankly not having any true impact on Gaza or Israel, but rather fueling the antisemitism

**spiking at a frightening rate within our community. Redwood City Public Comment ,

My name is Ragina Johnson, and I have lived and worked in Redwood City since 2019. I reside in District 7. I am a mother of a 6 year and my heart has been breaking every day listening to the news of the genocide being committed against Palestinians in Gaza. Over 30,000 Palestinians have been killed, over half of Gaza is starving, and 90% of Gazans do not have one meal each day. This brutal war is being committed with our tax dollars. I have learned that \$1M of our tax dollars in RWC annually goes to Israel's military.

Horrifically our tax dollars are going to bombs and weapons that are primarily killing children. Bombs and shelling continues each day while children and newborn babies are starving because they don't have food and water. Yet the bombs drop and terror continues. The war must stop, and we must as a Redwood City community show the Palestinians in Gaza, and in our community here in RWC, our love, empathy and support. A lasting ceasefire must be called so that Palestinians can grieve, bury their loved ones, heal and rebuild, eat 3 meals a day and newborn babies can live!

Redwood City must pass the community's proposed ceasefire resolution to demand an end to these human rights abuses. Similar resolutions have been passed in San Francisco, Richmond, and Oakland.

A local call for peace from the Council will bring together Redwood City residents of all faiths, and ensure the President and Representative Kevin Mullin listen to us. Over 2/3 of Americans support an immediate permanent ceasefire. Redwood City cannot remain silent on this issue, especially as many of our families and loved ones are being killed or forced to suffer in Palestine.

Sincerely,

Ragina Johnson

Dear council members,

The ceasefire proposed is NOT a peace resolution!!!

Hamas repeatedly broke ceasefires and refused negotiations. They hold hostages, including children, torture their own people, and use them as human shields. They steal aid, block evacuations, and misuse civilian infrastructure for building underground tunnels and for storing war ammunition. Furthermore, Hamas casualties cannot be trusted!

This resolution promotes hate and division. Two weeks ago, a Jewish dentist was killed by a radical Islamist. Jewish students were physically assaulted at UC Berkeley. Jewish professors are silenced and intimidated! Swastikas are carved in so many K-12 schools! Is this what you want to bring to Redwood City?

Since there is so much for all of us to understand and learn about Middle East, let's focus our work and attention to the local issues! Antisemitism is skyrocketed! We, your local Jewish community, are frightened and hurting! Please, unite us, don't buy into hateful propaganda! Do not agendize this divisive and hateful resolution!

Sincerely,

Val Gu

## **I am a Redwood City resident (94061) urging you to reject attempts to adopt divisive resolutions about the Israel-Hamas War.**

As antisemitism and Islamophobia continue to escalate in the Bay Area, the introduction of one-sided resolutions about the Israel-Hamas War have only further inflamed tensions between already-traumatized Muslim and Jewish communities and create a forum for hate, which has been evidenced in nearby cities and in my own experience as a graduate student at Stanford.

Mayor London Breed released a statement about the San Francisco City Council meeting during which a ceasefire resolution was decided upon. Her statement shared "numerous Jewish San Franciscans who tell [her] they don't feel safe in their own City." She astutely and accurately reported that the movement for local governments to adopt ceasefire resolutions for a country and international war falls outside your purview, stating "our City has been angrier, more divided, and less safe. **Sadly, that may have been the point.** [*emphasis added*] Their exercise was never about bringing people together; it was about choosing a side." Local government ceasefire resolutions are inappropriate, show a serious lack of focus on local needs and issues of our community, of which there are many, and pit two minority groups against each other: Jews versus Arabs, Israeli-Redwood City residents versus Palestinian-Redwood City residents. Both of our communities are hurting.

I am a graduate student at Stanford, and I have a Palestinian friend and labmate. We check in on each other, ask about our families in Israel/Palestine, and hug each other when we cry over the hurt, grief, and fear of the past few months. I have an Iranian friend with loved ones in Gaza. He is terrified for his friends, and we talk about whether our loved ones are safe. These friends and I show compassion to each other and have not stopped caring about each other; this compassion that I have NOT experienced shared by the non-Jewish, non-Israeli, non-Arab, non-Palestinian people putting forth these resolutions and parroting statements about a strip they had never heard of prior to October 2023. People directly hurt by this conflict can talk to each other with care and compassion. Those unaffected by this conflict are forcing forth hateful, one-sided resolutions and them and those who scream out in support of them cannot show this compassion, and that lack of compassion is what is bringing this proposal into Redwood City today—people want to take the opportunity to express antisemitic beliefs and hateful rhetoric against Jews and Israelis, and want to show they only have compassion for one side.

Finally, Mayor London Breed reported on the horrific anti-Jewish hate and stereotyping in the San Francisco City Council Chamber, hate that I predict is entering the Redwood City Council Chamber tonight. Mayor Breed reported "People in the crowd made pig noises, devil horns with their hands, and screamed for him [a

Jewish speaker] to 'kill himself' as he walked out the chamber." I experienced more subtle, but still present, perpetuation of antisemitic tropes at a similar meeting of the Stanford Graduate Workers Union, who adopted a statement on Palestine in October 2023, and ignored and silenced Jewish and Israeli students who tried to attend a meeting to work with the union. I submitted a public comment specifically about that incident at the City Council meeting in January.

**A resolution taking sides in a war between two other countries is far beyond the scope of your duties.** As a Redwood City resident and fellow liberal voter, I urge you to please continue to focus on local priorities and to promote opportunities that bring our diverse population together not divide us. **Please let this cease-fire resolution end here and not move forward for a vote.**

Thank you for your compassion and understanding.

Dear council members,

We, the Jewish people, are a ridiculous minority (approx. 2.4% in the US) and yet religious-based hate crimes against us represent over 50% of the total in the US. That was for 2022 according to FBI reports, and the numbers have skyrocketed since October. 7th.

What does a permanent ceasefire mean when Hamas has declared it will do October 7 over and over again?

For a ceasefire you need a partner. A murderous, hate-fueled terrorist organization is hardly a peace partner. When the civilian population supports this terror organization, peace is even less likely.

But for those that really want to end this horrific war, and it is horrific for both sides, demand of Hamas to release the Israeli hostages and surrender. There will be a real chance for peace then.

Thank you for keeping our city safe and united, despite our varied views.

Sandra  
Long time resident of Redwood City

Dear Redwood City Mayor and City Council members,

As a resident of Redwood City for the last twenty-two years, I have proudly sung praise about the great qualities our city possesses that set it apart from other cities on the peninsula and in California. In addition, as a member of the Jewish community and as part of my synagogue's security council, I have always felt supported and protected by the Redwood City Police Department and their efforts to keep us safe, especially after the significant upsurge in threats against the Jewish communities that became much more real for us after the deadly attack on the Tree of Life synagogue in Pittsburg, Pennsylvania.

As a resident in this great city, I find it unnerving and frankly disturbing that a City Council member has again sought to place on the agenda a discussion around a ceasefire in the Israel-Hamas conflict. It is my firm belief that the city council is not the place for discussion or policy on the war in Israel and Gaza and only serves to divide the community and provide a platform for anti-Jewish, anti-Muslim, and other forms of hate. Like many others, I yearn for true peace, but a ceasefire resolution from Redwood City will not help that cause in any meaningful way.

Thank you for your time and consideration.

Regards,  
Andrew Conroy

To the City Council of Redwood City:

Hamas inflicted untold harm on the people of Israel.

Hamas is responsible for the harm that has come to innocent Palestinian people.

The only resolution the Council should consider is one that condemns Hamas, calls for members of this terrorist organization to lay down their arms and turn themselves in, and supports the release of all remaining Israeli hostages. This is the only path forward to peace for all.

Thank you,

N. Peterson

Redwood City Public Comment ,

My name is hannan mcdonald. I was born in SF , full blood Palestinian and am 1st generation US.

I was always so proud to be American, I would sing our national anthem with pride. Unfortunately I don't feel that way anymore. The US IS SUPPORTING AND FUNDING a genocide. THOUSANDS of innocent people being killed in the name of money. I feel ashamed to be in a country and paying taxes that support the killing innocent civilians. THE US IS MAKING IT WORSE!!! We helped create Isreal and now they are terrorizing the poor Palestinians with US HELP. WE ARE NOT ANTISEMITIC WE JUST WANT PEACE!!! I don't care who you pray to... just STOP KILLING US AND GIVE US A COUNTRY OF OUR OWN

The atrocities in Palestine must be stopped. Over 30,000 Palestinians have been killed, over half of Gaza is starving, and 90% of Gazans do not have one meal each day. We are paying for these war crimes through our federal tax dollars instead of what our community needs. Dear San Mateo City Council,

My name is Regina Frenkel and I have been a resident of almost 20 years. I am also a registered and conscientious voter. I am imploring of RedWood City Council NOT to bring this Ceasefire Resolution to a future agenda.

When we vote in our city elections we are voting for our representatives who will address local city issues, and not comment on foreign affairs. This resolution has no place in the purview of the city council.

Many of us are heartbroken about the ongoing tragedy and devastation in Gaza and in Israel- many in the community are affected personally. The pain is real as is the worry and angst about our families living in the region. However, it is NOT for the RW City council to "call for a ceasefire" especially when this is an empty declaration: How will this be enforced? How will you guarantee that Hamas does not execute another Oct 7 as they have promised to do "again and again"? These are real questions requiring serious deliberation and not to be taken up by a city council on the opposite side of the globe.

The resolution will not stop the war nor will it result in Hamas' release of the hostages. The resolution will, however, sow division among our community and will leave a significant segment of your constituents feeling alienated and scared. I urge you to please continue to focus on local priorities and to promote opportunities that bring our diverse population together not divide us. Please let this cease-fire resolution end here and not move forward for a vote.

Redwood City Public Comment ,

Dear Redwood City Council Members,

I urge you to vote YES on Agenda Item 10A, which Calls for an Immediate and permanent ceasefire and the unrestricted entry of humanitarian assistance to Gaza.

As a former resident and employee of Redwood City, voter, and lifetime resident of San Mateo County, I have witnessed countless Palestinian Americans, including residents of Redwood City, impacted by the violence inflicted on their loved ones in Gaza. My own students are painfully bearing witness to the atrocities caused by the Israeli military operations through their phones and making connections in class that they are watching history repeating itself through the displacement, starvation, and mutilation of indigenous bodies. I refuse to let them believe we do not have the power to stop this genocide. That is why I urge you to speak out publicly and in favor of the ceasefire resolution.

Please reject to include any resolution on the agenda regarding the war between Israel and Hamas. As an Israeli and proud member of the Jewish community, I understand all too well what is happening in the region. It is a complex issue that cannot be resolved at a city council meeting. Please focus on local issues, such as city parks and public safety. Focus on bringing the community together. You speak for everyone in the community, and your message cannot be unilateral. Thank you.

Good evening Council Members,

My name is Christina and I am a resident of San Mateo. I urge you to pass the resolution calling for a permanent ceasefire in Gaza and across Palestine. This resolution is a fair and simple ask to stop the killing of innocent civilians especially babies, children and women. Violence against people of any race or culture is wrong. Being Palestinian means calling for an end to the occupation that forced my grandparents to flee their homeland almost 60 years ago. I can't imagine what that reality may have been like if they did not make it out. Being Pro-Palestinian is asking for equality and an end to the atrocious human rights violations experienced by innocent Palestinian civilians for decades. It is sad that I need to formally request basic humanity towards innocent civilians who are being slaughtered or starved to death and that our tax payer dollars are funding this murderous campaign by Israel. I deeply request you find it in your hearts to hear our demands for humanity and to stop the murder of innocent children in Gaza and across the region.

Sincerely,  
Christina Daheb

**Dear City Council Members,**

I am a local resident, I regularly shop, visit, and participate in events in Redwood City. I urge you to vote NO to calendaring a resolution calling for a ceasefire, and NO to a resolution calling for a ceasefire.

Such a resolution is promoted by people who terrorize Jewish people in this country, in Israel, and elsewhere. The Palestinians and their supporters openly call for the destruction of Israel and the killing of all Jewish people regardless of where they live. This is part of the charter of Hamas, the government of Gaza. Their hatred is demonstrated regularly at city council meetings, university campuses, and elsewhere.

The ceasefire resolution brings out the haters, and makes our fellow Americans, the Jewish Americans--a very small minority of Americans--feel hatred and suffer overt acts of hatred. Calendaring or adoption of a ceasefire resolution tells us that the Redwood City Council supports hate.

Just as you would not support a resolution that makes any other group feel hated: LGBTQ, African-Americans, Latinx, Hindus, Sikhs, Buddhist, Jehova's Witnesses, Catholics, and any other minority, this Council should not vote for a resolution that is sponsored by those who demonstrably hate Jewish people or hate Israel, the tiny and only Jewish country in the world.

Redwood City Public Comment ,

As a long-time resident of Redwood City and San Mateo County, I respectfully request that the RWC CC pass a cease-fire resolution. Not only is this the moral thing to do and the democratic thing to do (given a large majority of Americans support a cease-fire) but on a pragmatic level, we in the community will remember those politicians who did not vote for these resolutions, and you can be certain we will never vote for anyone who chooses not to take a stand against the current atrocities being committed by Israel.

You took a stand regarding atrocities of war in the Ukraine. You set the precedent. Please do the same, now.

Sincerely,  
Michael Batchelder

Redwood City Public Comment ,

Hello,

My name is Courtney Borrone. As a lifelong resident of and business owner in Redwood City, I urge you to support a resolution in support of a ceasefire in Gaza. I am heartbroken to hear stories of the thousands of innocent civilians killed in Gaza. Feeling a world away, it is hard to know quite how to take action. Our community must band together and show our support of the people of Gaza. We must support an end to these atrocities and show that our city condemns hate.

The atrocities in Palestine must be stopped. Over 30,000 Palestinians have been killed, over half of Gaza is starving, and 90% of Gazans do not have one meal each day. We are paying for these war crimes through our federal tax dollars instead of what our community needs. Redwood City must pass the community's proposed ceasefire resolution to demand an end to these human rights abuses. Similar resolutions have been passed in San Francisco, Richmond, and Oakland.

The atrocities in Palestine must be stopped. Over 30,000 Palestinians have been killed, over half of Gaza is starving, and 90% of Gazans do not have one meal each day. We are paying for these war crimes through our federal tax dollars instead of what our community needs. Redwood City must pass the community's proposed ceasefire resolution to demand an end to these human rights abuses. Similar resolutions have been passed in San Francisco, Richmond, and Oakland.

A local call for peace from the Council will bring together Redwood City residents of all faiths, and ensure the President and Representative Kevin Mullin listen to us. Over 2/3 of Americans support an immediate permanent ceasefire. Redwood City cannot remain silent on this issue, especially as many of our families and loved ones are being killed or forced to suffer in Palestine.

Sincerely,

Redwood City Public Comment ,

Since October 7th, over 30,000 Palestinians have been killed. Many of them starved through a forced famine that Israel has made them undergo through the blockage of Humanitarian Aid through the borders of Gaza.

My name is Jorge Torres Jr. and I have lived near the Redwood City area for all of my life. I am 20 years old and have heard and witnessed many atrocities that have happened around the globe such as the immigration problems that the borders that surround the US face along with the struggle to survive in a new country from the point of view of immigrants. My parents had to leave their respected countries, Mexico and Guatemala, just to escape to lands where conflicts and war would not affect them. As I have heard through their point of view, they were scared and terrified knowing that the people in their home countries that didn't have a chance to leave were to be faced with the horrors of living through destructive conflicts. While my parents are not middle-eastern, that does not mean that we don't have similar feelings to our fellow humans. It doesn't matter what ethnicity you are to understand that genocide and brutal killings are not something that any group of people should endure, nor should it be normalized either. The killings from this genocide caused by Israel has not only targeted non-militants for the majority of the deceased, but many of them were women and children who were very helpless in the eyes of the Israeli Defense Forces.

The atrocities from the Israeli Defense Forces can vary from killing the disabled, rape, kidnappings, and brutal torture towards the civilians of Gaza. Many of these disturbing allegations can be seen posted on the internet from the IDF soldiers themselves. Such an example that comes to mind is the killing of an deaf elderly man who just a few days ago was still living up until the Israeli Defense Forces barged into his home and, while the old man was putting his hands up and unarmed pleading to spare his life, shot him multiple times where he stood. The video continues with the IDF soldier who walked back to his comrades and they congratulated him on the kill. Such disgusting acts of violence is what leads me to write this letter in retaliation of the IDF and how they treat the poor citizens of Gaza by making them endure this disgusting genocide.

These atrocities are being funded by US tax dollars which the government has used for the support of genocide rather than to help out it's own citizens or the citizens of Gaza. We are directly paying for the death of these innocent people and I believe that redwood City must pass this proposed ceasefire resolution so that the genocide can come to a permanent ceasefire and to put an end to the human right abuse that the victims of the Gaza Genocide are going through right now.

A local call for peace from the council will bring together the residents of Redwood City and show faith towards the leaders of the council as well making sure that President and Representative Kevin Mullin listens to our demands. Over 2/3's or 66% of Americans support this immediate permanent ceasefire and I believe that Redwood city should not and cannot remain silent on this issue. The people of Gaza need our help with voicing the permanent ceasefire of the genocide in Gaza while they suffer and are being killed.

Sincerely,  
Jorge Torres

Dear Mayor Gee and Council Members of Redwood City,

Thank you for adding a ceasefire resolution on your agenda. My message is short ~ with our country providing Israel the funds to commit a genocide in Palestine, we, as community members and tax payers, have the right to demand that we support a permanent ceasefire in Palestine. Every person in this country should be on the side of peace and a ceasefire and humanitarian aid to Palestine is the only way.

Please pass this resolution and be proud that Redwood City is on the right side of history.

Sincerely,  
Cheryl diTargiani

It is time for common sense to override PC concerns. Palestinians have destabilized every country that they have been in...that's the reason they are not welcome in other Arab countries....are you aware of what the Palestinians, under the leadership of the PLO, did to Lebanon?...young Palestinians are taught, in school, to hate Israel and its people...you cannot live next door to terrorists who live to kill you....who constantly fire rockets into civilians homes. Wake up and support Israel...they are the only Democratic institution in the Middle East.

Redwood City Public Comment ,

Hello there,

My name is Sarah and I was born and raised here in Redwood City. This city has been my home for almost 30 years and has shaped who I've become as a person. I've worked in small business for 12 years, and currently work at Stanford University, helping organize pediatric cardiology research. I am forever grateful for an abundance of opportunity in a world where I am safe, as well as the and the compassion of the community that surrounds me. Safety, freedom, and community are at the core of basic human rights and without these things, I would not be where I am today. Unfortunately, not everyone is afforded these rights due to something completely out of their control, many of these, are children in our international community.

The atrocities in Palestine MUST be stopped. Over 30,000 Palestinians have been killed, over half of Gaza is starving, and 90% of Gazans do not have one meal each day. I have seen atrocious things LIVE on social media. There is no "complicated" when babies are being blown to pieces. These are things I have seen with my own eyes. In fact, the videos and images I've seen, the screams I've heard, and the tears I've witnessed are something Hollywood couldn't even make up. These things will be etched into my mind, forever. The grief and shame I feel grows, knowing we are paying for these war crimes through our federal tax dollars instead of what our community needs. Redwood City must pass the community's proposed ceasefire resolution to demand an end to these human rights abuses. Similar resolutions have been passed in San Francisco, Richmond, and Oakland. Redwood City MUST follow in their footsteps. I refuse to admit I'm from a community that does not care about the international community. I refuse to be complicit and I refuse to let our community take the fall for it. We absolutely must stand together and admit when wrong is wrong. We are watching a genocide being live streamed on our phones and I can't imagine the horror felt when the journalists in Gaza said, "Wait! We can share these atrocities with the world through the internet! We can show them the truth and what is being done to us! SURELY, the world will do something!" and then, the world has done nothing but watch. Watch entire lineages being wiped out, watch the countless babies murdered in cold blood. SURELY, WE MUST DO SOMETHING. We must call for ceasefire to save the remaining citizens, children, although they will be severely traumatized, we can still save them. The impact this has had on humans (around the world, as we are all being exposed to the atrocities of armed conflict), the impact it will have on generations to come, the impact it has had on wildlife and other animals, and the impact it has had on the environment and our planet, are all things that must be stopped, immediately. There is no more time left. We are all looking to our leaders and we are looking for the ones

that would stand up for us too. I would stand up for you and your children. Will you stand up for mine?

A local call for peace from the Council will bring together Redwood City residents of all faiths, and ensure the President and Representative Kevin Mullin listen to us. Over 2/3 of Americans support an immediate permanent ceasefire. Redwood City cannot remain silent on this issue, especially as many of our families, and loved ones, including my own, are being killed or forced to suffer in Palestine. Redwood City MUST be on the right side of history. It would be an embarrassment and an absolute shame to not be.

Sincerely,  
Sarah Alinejad

Redwood City Public Comment ,

Hello, My name is Nahom Ayalew. And I am writing to ask for the Redwood City Council to call for an immediate ceasefire in Gaza.

Gazan civilians under Israeli siege are being killed at a record historic pace. In less than a year, more than twice as many women and children were reported killed in Gaza than in Ukraine after two years of war. Even in the conservative estimates, in Gaza, around 25% are starving, (1/2 mil starving), 85% are displaced, (2mil displaced), 1% are killed, (30k dead).

This round of conflict is described by the UNICEF as a war on children, taking the lives of at least 14 thousand kids. A number that does not reflect the many other children who were left permanently injured and alone to die of starvation.

Furthermore, according to researchers in UK and US, there will be at least 6550 additional deaths of that will occur even if an immediate ceasefire happened in Gaza today. However without an immediate ceasefire or even a further escalation and ongoing epidemics, the number of excess death is projected to grow to up to 85 thousand deaths in a matter of months.

Once again I urgently ask the city of Redwood to join the growing number of U.S. cities in favor of an immediate and permanent ceasefire.

Thank you

Nahom Ayalew

All life is precious and Palestinians deserve to live in peace as much as any other human beings do. I believe that a ceasefire resolution is a necessary step towards this peace. As a Redwood City resident and lifelong voter, I urge Redwood City to pass this ceasefire resolution to give our community a voice in this issue and to bring a peaceful resolution and humanitarian aid to the region.

Hello! My name is Yanming Wen and I live in Foster City, close to Redwood Shores. I frequent the Redwood City Public Library and local outlets. My city has refused to consider a ceasefire resolution.

I hear that Redwood City is considering one in the current meeting; please let me express solidarity with all citizens of Redwood City who want a ceasefire in Gaza, and all citizens of Gaza who want to live. The United States funds much of Israel's military activity, and our federal government pays for IDF bombs with our tax dollars. Having recently done our taxes, many of us are unhappy that our money is being used to murder civilians en masse. If any nation in the world has the power to stop Israel's military from starving and shooting schoolchildren and their families, it is the United States.

President Biden and Congressman Mullin staunchly support this slaughter, making the US and San Mateo county an unsafe place for citizens whose loved ones have died as a result of this tragic escalation in violence. As long as our funding of this injustice continues, the death toll for both Israelis and Palestinians will continue to mount. It is therefore imperative that local governments take a stance in support of their constituents who grieve the loss of over 31,000 lives in this conflict. It is imperative that the city calls for a permanent ceasefire, the release of hostages on both sides, and the end of restrictions on humanitarian aid that Gaza sorely needs.

Thank you.

Dear Council Members,

I moved to Redwood City 12 years ago.  
I'm heartbroken from the vicious Hamas attack on Israeli cities back in 10/7, taking 240 civilians hostages into underground tunnels in Gaza.  
Kids, babies, mothers, fathers, grandparents.  
Burning, raping, torturing and murdering 1,200 civilians.

I'm not blind to Palestinians suffering.  
This is all on Hamas.

Redwood City is my haven.  
I ask you to not interfere in matters of the State of Israel and Hamas.

There was a ceasefire up till 10/7.  
Not Israel invaded to Gaza that morning.

Please continue to run Redwood City's affairs.  
This one isn't ours.  
You weren't elected for office to handle  
International affairs.  
You have many blind spots about this long conflict.

If you must, condemn Hamas for not  
Releasing babies, kids, mothers fathers and grandparents from captivity.

Respectfully,  
Val Davidson.

Redwood City Public Comment ,

Dear Redwood City Council,

I want to share this conversation with my 5 year old daughter the morning after you voted against the ceasefire resolution. Her daddy had the livestream of the meeting on while he was getting her ready for bed, but she didn't get to stay up long enough to see my 1 minute comment:

-Mama, did you talk on the TV?

-Yes, I did.

-What did you do?

-I tried to keep more children from getting hurt.

-Mama, did you win?

-No honey, I lost.

-Why did you lose?

-What I said wasn't good enough.

-Mama, do we always lose?

-No honey, sometimes we win.

-Mama, you should have said that little children shouldn't go to the castle because of the bad King!

-You're right! If only I'd said that. I'll say that next time.

So, you see, there are now things I wish I'd said, so I'll say them briefly now, in the hope you will re-consider passing a ceasefire resolution:

1) It is absolutely your job to do the MOST that you can do in your capacity as public officials to stop the killing with our tax dollars. As public servants and government officials you have MORE power than me as an individual, and therefore more responsibility than me in that capacity. I'm sorry you chose to abdicate your power.

2) You do not need to be an expert on Middle East policy to stand up for a ceasefire. I work in a library, and our racial justice committee compiled an excellent book list, at least half of them written by Israelis, if you're interested to learn more about solving the political situation and creating a lasting peace in the region with equal rights at its core. No, this resolution by itself won't stop the killing, but taken all together, multiple city resolutions builds pressure on our congress to do the right thing, and then maybe we will stop the killing.

2)You say you need to get on with the business of running a city. Can you really not handle

both your moral obligations as humans in a position of power at the same time that you work on the housing issue?

3)That resolution is not divisive, in fact you have now caused more division by abdicating your responsibility. That resolution was an opportunity for us to say as a community "We don't want more dead children."

It calls to stop the killing on both sides. Of all the opposing arguments, I did not hear a single specific issue with any line in the actual resolution, I only heard the same talking points that the Netanyahu and Biden administrations have been repeating ad nauseam. As one speaker who identified himself as a Middle East researcher noted, Israelis in Tel Aviv are protesting Netanyahu and calling for a ceasefire. Finally, that same speaker pointed out that to the extent this question is divisive, passing a resolution to stop the killing does not make it MORE divisive, it simply means you use your power as city officials to do the right thing and call for peace.

Next time there's a public comment period, I'm bringing my daughter, and she'll tell you how it is.

Sincerely,  
Leah di Tullio
